

Glacier Ice Faucet and Sink professional sealer kit will not only restore sinks, faucets and shower doors from mineral buildup and hard water spots, it will also protect from future corrosion, oxidation, mold and mildew. Treats up to 100 square feet.

## How should I care for my Novatto Faucet?

For the absolute best cleaning results seal and clean your faucet with Glacier Ice. This will help to seal the faucet and prevent hard water spots and mineral build up. It also has a patented formula for removing oxidation and mineral build up. Do not use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol or other solvents. Use a soft cloth or sponge and rinse with soap and water. Rinse and dry any excess cleaner which may land on adjacent surfaces. The effectiveness of all cleaners depends on factors like water hardness, temperature and condition of product being cleaned.
