

ARTKAL®

# Artkal Pattern

The pattern is drawn by @artkalbeads

# Instruction

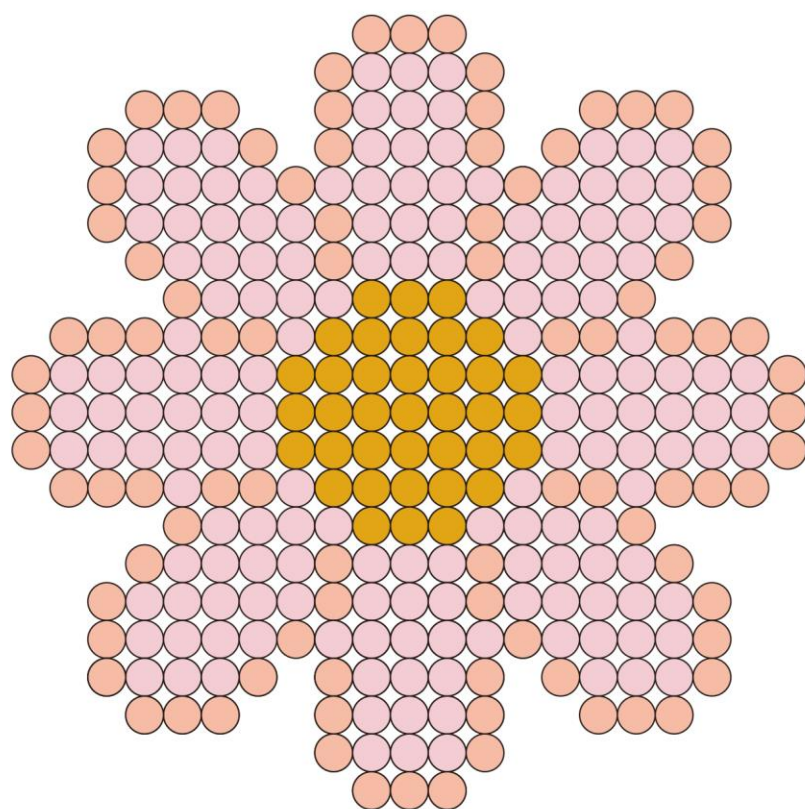

1. Use four big square pegboards for your project. For the original project, we use the midi beads S series. If you love mini, you can select mini C series. Now, place all the beads for the design.

2. Cover the completed design with the ironing paper or ironing film. Keeping the iron level, gently iron the beads in a circular motion for about seconds to fuse the beads evenly.

3. Peel off the ironing paper and lift your design from the pegboard. Your pegboard and ironing paper / ironing film are reusable.

4. Gently curl the artwork while it's still warm, then connect it with acrylic stick.
