

ÅRTKÅL®

# Artkal Pattern

The pattern is drawn by [@creative.with.perlerbeads](#)

# Instruction

1. Use four big square pegboards for your project. For the original project, we use the midi beads S series. If you love mini, you can select mini C series. Now, place all the beads for the design.
2. Cover the completed design with the ironing paper or ironing film. Keeping the iron level, gently iron the beads in a circular motion for about seconds to fuse the beads evenly.
3. Peel off the ironing paper and lift your design from the pegboard. Flip the design over and repeat step #2. Your pegboard and ironing paper / ironing film are reusable.
4. Put the project under the book or something heavy after you iron it. Once the design is cool, it is finished.
