

ARTKAL®

Artkal Pattern

The pattern is drawn by @artkalbeads

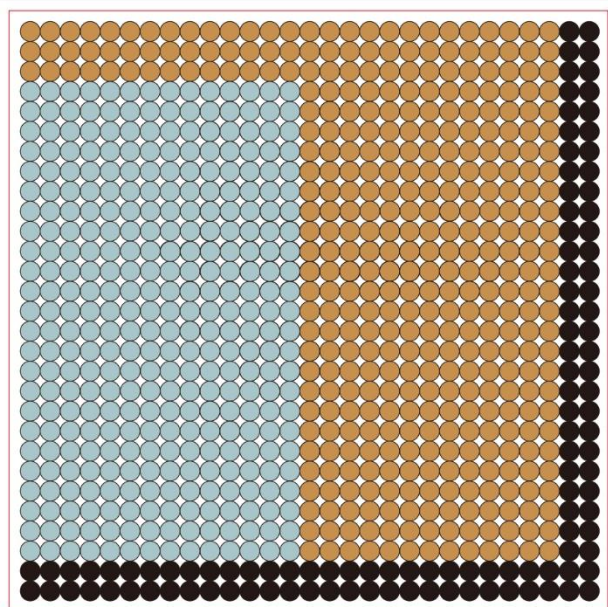

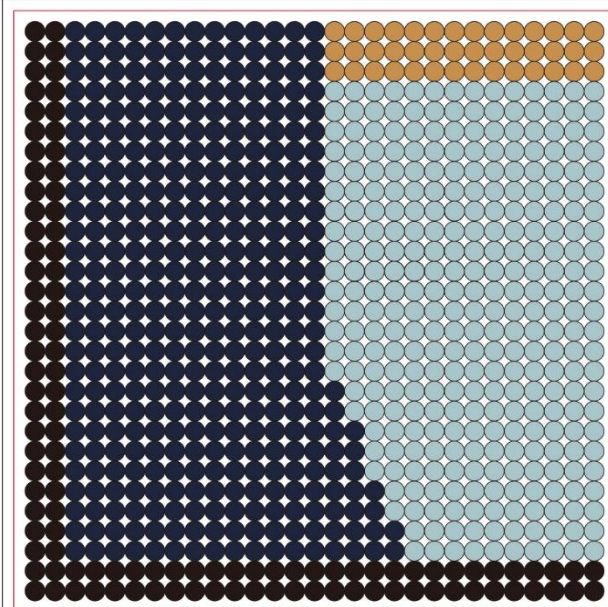

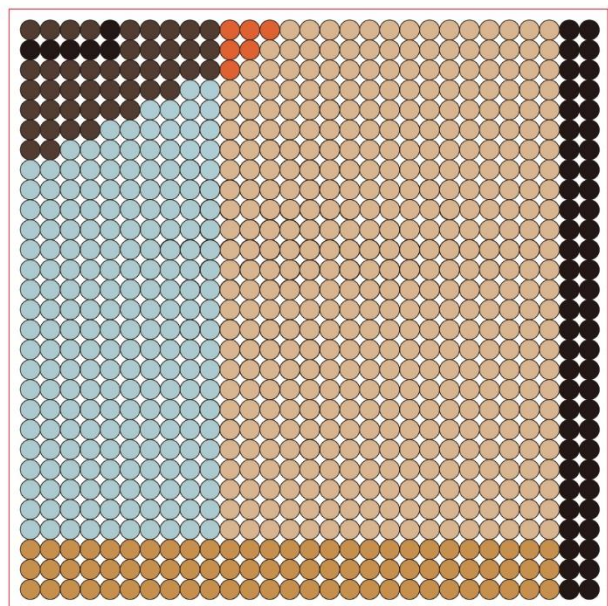

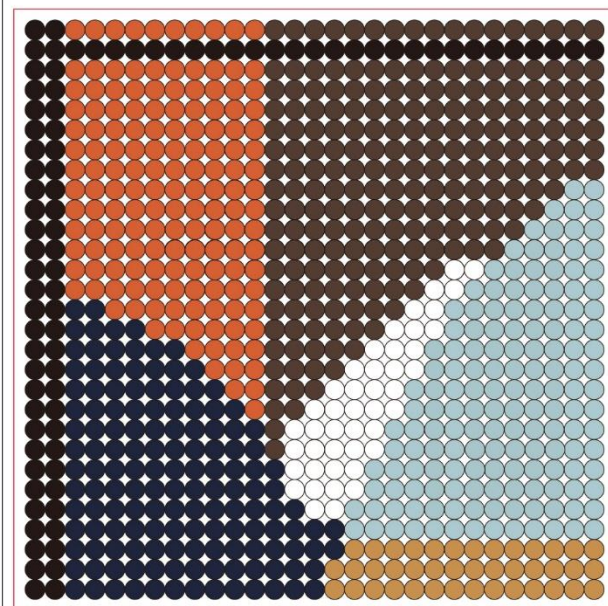

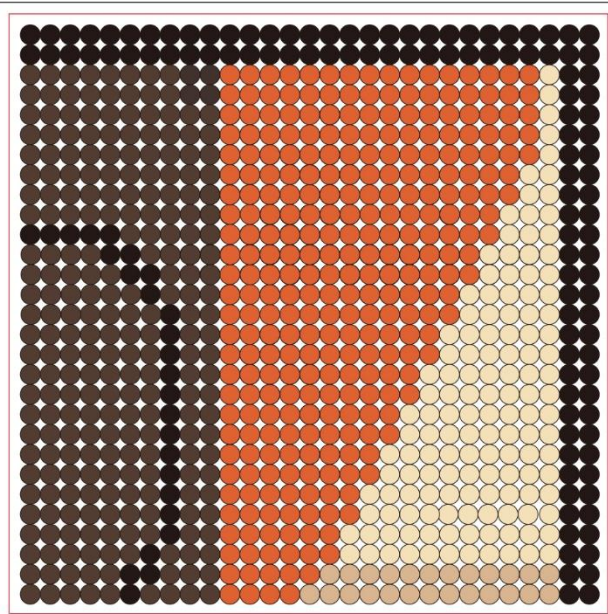

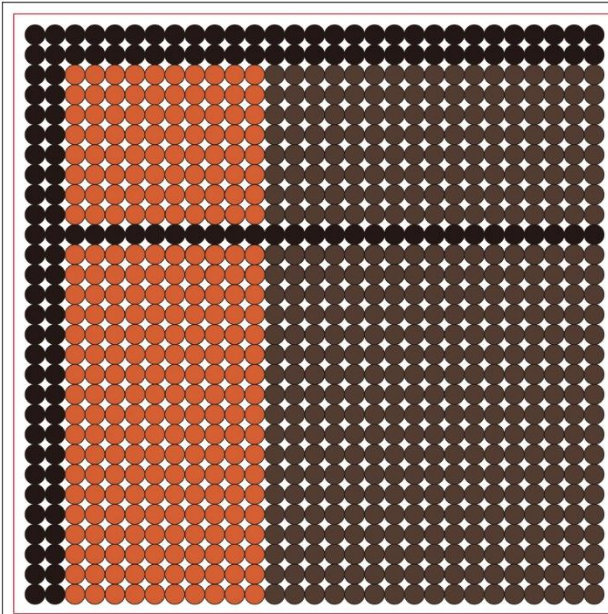

Instruction

1. Pls prepare for midi beads S series and 6 big square pegboards for midi. Select the colors on pattern. Now, place all the beads for the design.

2. Cover the completed design with the ironing paper or ironing film. Keeping the iron level, gently iron the beads in a circular motion for about seconds to fuse the beads evenly.

3. Peel off the ironing paper and lift your design from the pegboard. Your pegboards and ironing paper/ ironing film are reusable.

4. Put the project under the book or something heavy after you iron it. Once the design is cool, that's it!

Bead your dream & live creat life
