

ARTKAL®

# Artkal Pattern

The pattern is drawn by [@creative.with.perlerbeads](#)

# Instruction

1. Use four big square pegboards for your project. For the original project, we use the midi beads S series. If you love mini, you can select midi C series. Now, place all the beads for the design.
2. Cover the completed design with the ironing paper or ironing film. Keeping the iron level, gently iron the beads in a circular motion for about seconds to fuse the beads evenly.
3. Peel off the ironing paper and lift your design from the pegboard.
4. When it hot, bend it and hold them together with accessories. Then it is finished.
