ÖGON : The creator of aluminium wallets

Founded in 2004 in France, ÖGON DESIGN invented the concept of the smart wallet, launching the very first designer wallet made of aluminium.

The arrival of ÖGON revolutionized the leather goods market and our iconic model, the Stockholm rapidly became a best-seller and international success.

Since ÖGON DESIGN has continued to produce innovative wallets with a unique take on the traditional wallet.

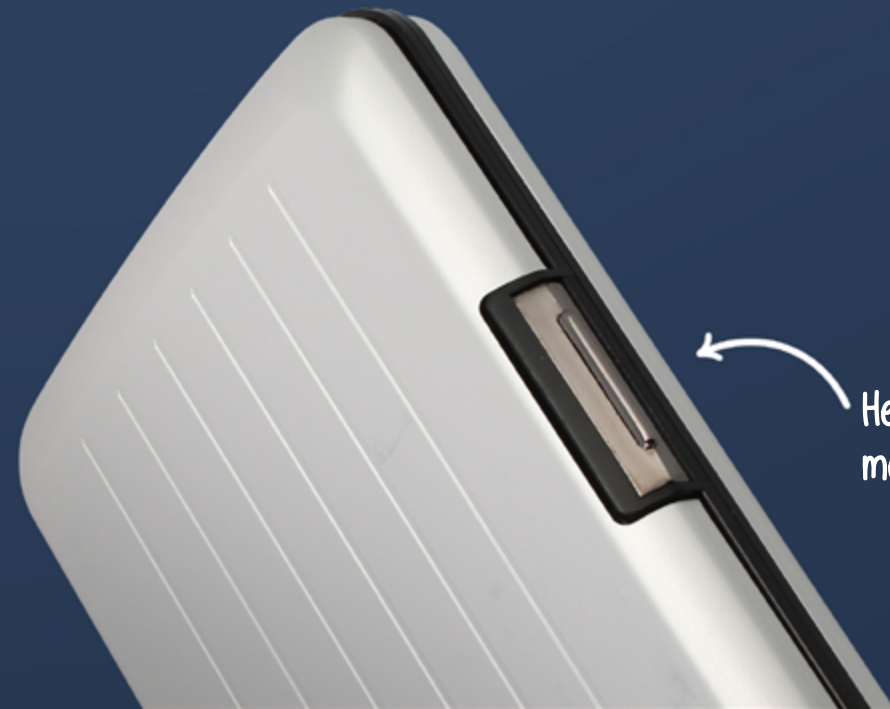

We offer wallets to meet everyone's needs with quality and craftsmanship that combine style and functionality.

MODEL

STOCKHOLM^{V2}

The emblematic Stockholm reinvented:
new design, new functionality!

**Eco-responsible
since 20 years**

Environmentally friendly production

Since the beginning, Ögon has always been an eco-responsible company, concerned about its environmental impact and has always been ethical.

Our permanent concern for quality allows us to produce durable objects and not disposable consumables.

Recycled & recyclables materials

Did you know that the aluminum in our wallets is recycled? Indeed, without sacrificing quality, we have always used aluminum, of which 70% of this alloy revalorizes the aluminum from selective sorting.

We are doing everything in our power to ensure that our future productions are made with 100% recycled aluminium.

Vegan leather

Ögon has always offered alternative products to traditional leather goods, both in design and in materials.

Therefore, we have chosen to also offer a Vegan leather (does not include any animal material).

There is a real demand for this type of product.
