Endless Possibilities

TCHIP

Design Evolution

Trax Drapery Hardware™ was founded on the principle that innovation, design and quality do not need to be sacrificed to provide exceptional value. Offering a wide range of in-stock and ready to ship hardware, Trax Drapery Hardware™ has evolved and developed an extensive range of exclusive products, designs and colors. The Iconic Collection's new patent pending SmartSet™ Technology continues this tradition of innovation by simplifying the installation process while respecting the customer's expectations of design and value.

The Iconic Collection is the latest addition to the Trax Drapery Hardware™ range of products. The collection offers nine sensational finial designs in five designer colors. From modern to elegant, every curve has been designed to enhance any room's decor.

Every color has been carefully selected, from Polished Nickel to Matte Black and Brushed Brass combinations, the design possibilities are endless.

Offering the widest range of components and accessories, the Iconic Collection has been engineered for installation precision. Trax's new patent pending SmartSet™ Technology offers easy to install channel rods and the world's first post-installation vertical adjustments on channel rods. SmartSet™ Technology offers up to half an inch in post-installation vertical adjustment, providing the highest level of precision and customer satisfaction.

We hope that the Iconic Collection will meet our discerning customer's design needs and continue in our never-ending goal of achieving design evolution.

Note: Sizes are approximate. Pictures of products may not be exact color.
