Bell Peppers	Broccoli	Blueberries		
Sweet Peppers	Cauliflower			
EXPERT				
Pumpkin	Mini Corn	Melons		
Squash				
NOT RECOMMENDED				
Potatoes	Sweet Potatoes	Turnips		
Carrots	Corn			

Tip: when growing multiple items at the same time, they should have similar growth cycles, require the same set of nutrients, and grow to a similar height

For example, these items grow well together:
 a variety of herbs (dill, parsley and basil),
 a mixture of leafy greens (lettuce, salad mix and spinach),
 or baby tomatoes and hot peppers.
