

# N95 POUCH-STYLE RESPIRATOR

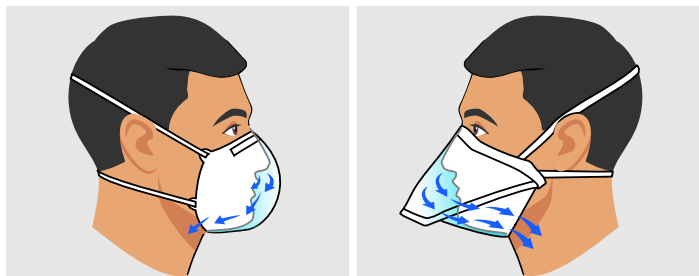

## COMFORT AND PROTECTION YOU CAN TRUST

N95 masks provide protection against occupational as well as environmental threats remaining in the air. Approved by NIOSH, the pouch-style N95 masks generate additional comfort, breathability, and productivity while maintaining the high safety standard set at the workplace. They are for single use only and must be disposed of to avoid any health hazards.

### THE N95 POUCH-STYLE RESPIRATOR:

- Blocks 95% of airborne particles
- Effective against oil-free particulate, aerosols, and dust
- The seal formed in N95 respirator masks offers better protection of the mouth and nose than **general-purpose surgical-style and other cloth masks**, which filter only the outgoing air

For your work environment, where comfort, fit, reliability, and safety for your team is prioritized, you can trust the NIOSH-approved N95 Pouch-Style Respirator.

The N95 Pouch-Style Respirator is designed to increase air flow for better breathability

## COMFORT, FIT & SAFETY

- ✓ Pouch-style design provides larger breathing chamber and is ideal for all-day use
- ✓ Ultra-soft non-irritating lining delivers superior comfort over traditional respirators
- ✓ Extra-wide dual-head straps ensure a tight yet comfortable seal around the nose and mouth, preventing exposure around the mask edges
- ✓ Adjustable nose clip reduces potential fogging when used with other PPE products
- ✓ N95 rating provides a minimum 95% filtration efficiency of 0.3-micron particles
- ✓ Latex-Free
