| | N/A | Panel Set, 2 pc. Brick (Blond) - 51102 | |

Right & Left are referred to as viewed from front of unit.

ITEM numbers correspond to the following component diagrams.

① Units shipped from the factory after 3-31-99 & prior to 4-15-98 have a painted finish. Units shipped from 4-15-98 to 3-31-99 have a powdercoat finish. When ordering replacement parts with powdercoat finish add the letter "B" to the part number (ie. 51032B is a surround panel with a powdercoat finish).

• Note: Units with a powdercoat finish can be identified by the work order number printed on the body; work order number 1288 and below are powdercoat, work order number 1289 and above are painted.

CAUTION: Units with powdercoat finish, use only the powdercoat touch-up paint designed for this finish. DO NOT use stove paint as a touch-up because it will react with the powdercoat finish.

🗵 Includes thermocouple, thermopile, pilot orifice, pilot tube and igniter electrode. The igniter wire, P/N 45066, is not included.

* The numbers in parenthesis correspond to the component diagrams on the following page(s).

** Fits pilot assemblies w/o a detachable pilot hood (the pilot tube fitting requires removal to install. Body of pilot hood does not have a visible clip.)

*** Fits pilot assemblies w/detachable pilot hood (there is a visible clip on the body of the pilot hood which must not be removed when installing pilot orifice).
