### TS-222 Floor Grip

## Get A Grip!

**Floor-Grip** is something you won't find anywhere else! It's an exceptionally tough non skid floor coating that features three different sizes of aggregate added to a durable industrial-marine alkyd base. It produces an attractive finish sure to get attention.

Floor-Grip produces a rock-hard finish that really lasts. It creates a beautiful decorative non slip floor surface unlike anything you have seen before. Major hotel chains, public pools, and businesses love it because it improves safety, lowers liability and produces a very attractive finish that is tough enough to meet the demands of high traffic and easy enough to walk on in your bare feet.

Floor-Grip is excellent for use on decks, steps, gangways, ramps, in dining areas, kitchen areas, walk in freezers, pool areas and public bathrooms. It is an effective treatment for high traffic areas subject to slips and falls. It produces an attractive finish that adds texture and color. It is resistant to color fade, abrasion and the effects of ponding water. It will fill and seal small cracks. It is considerably harder, more durable and longer lasting than typical non slip floor paint. It adheres to most any surface including concrete, asphalt, ferrous and non-ferrous metals and masonry while providing a durable non-skid surface that has superior resistance to abrasion, marring, chipping and cracking.

Easy application, brush or roll it on depending on surface and specific application requirements. Covers 50-75 square feet per gallon to achieve the desired 25-30 mil dry film thickness. Best when applied with a texture roller cover as seen on our supplies page. Dry to the touch in 30 minutes-1 hour. Available in 100 colors.

#### Product Features:

- One coat application.
- Contains three different sizes of aggregates pre-mixed.
- Single stage formula is easy to apply.
- Produces a rock hard finish.
- Acceptable for interior and exterior applications.
- Will not pick up due to hot tires.
- Provides good resistance to chemicals.
- Acceptable for use in marine environments.
- Resists cracking and peeling.
- Available in 100 colors.

# PERFORMANCE DATA

## TS-222 FLOOR-GRIP Single-Stage Non-Skid Coating

**COLOR(S):** Unlimited Range of Colors.

**PRODUCT TYPE:** Acrylic Modified Alkyd Aggregate Coating.

**DESCRIPTION:** A non-slip, non-skid alkyd aggregate coating for steel, aluminum and masonry surfaces. It contains a special aggregate combination which withstands rough weather conditions and daily wear and tear. Acceptable for marine and harsh industrial and commercial environments.

**Intended Use:** For use on steel, aluminum or concrete, tile and masonry surfaces: Decks, porches, walkways, ramps, steps, boat decks, bridgeways and numerous other marine / industrial applications. Not for use on wood surfaces. FOR WOOD USE: TS-333 Floor-Grip II.

### **PHYSICAL CHARACTERISTICS**

**VISCOSITY:** 125 k.u.

**TACK FREE:** 2 hours

**DRY HARD:** 8 hours

**TIME TO RECOAT:** 8 hours

**WEIGHT SOLIDS:** 79-81%

**VOLUME SOLIDS:** 59-62%

**WEIGHT PER GALLON:** 14 lbs. per gal.

**V.O.C.:** 350 grams per liter

**FLASH POINT:** 80° F.

**PACKAGING:** 1 or 5 gallon containers    **BATCH:** Stock

**PRACTICAL COVERAGE:** 75 square feet per gallon.

**SURFACE PREPARATION:** Clean all surfaces of oil, dirt, grease, corrosion and any existing paint that lacks good adhesion. Temperature must be a minimum of 50° F. to apply **FLOOR-GRIP**. Steel, aluminum and masonry: Should be etched with **TS-695 Etching Cleaner**. For optimum adhesion over aluminum: Apply fog coat of **TS-117 Pre-wash Primer (MIL-P-15328 Zinc Chromate Wash Primer)**. For steel: Apply **TS-900 Fabrication Primer**. For Fiberglass apply **TS-664 Etching Primer**.

**APPLICATION:** Stir **FLOOR-GRIP** thoroughly before applying. Apply by brush or roller at a spreading rate of 75 square feet per gallon.

**THINNING:** Thinning is not recommended. If absolutely necessary use **TS 605 Synthetic Thinner**.

**CLEAN-UP:** Equipment and tools may be cleaned with **TS 605 Synthetic Thinner** or **TS 610 Lacquer Thinner**.

**LIMITED WARRANTY.** To the best of our knowledge, the technical data presented above is true and accurate at the date of issuance and subject to change without prior notice. TSC guarantees its products to conform to its standards of quality control. Liability is limited to replacement of product. No other warranty or guarantee of any kind is made by TSC, implied or otherwise.
