COZY CLOUD SLIPPERS

SIZES

Women's US 5 up to a Men's US 13.
If you are between sizes, size up!

MATERIALS

1 Cozy Cloud Slipper Kit includes
Essex Yarn Dyed Homespun
Shetland Flannel Speckle
Loop Terry Matching Rib Knit
Wool Batting

OR

10.5" x 44" Interior Fabric
10.5" x 44" Exterior Fabric
8" x 13" Knit Fabric (ensure the selvedge is parallel to the
8" side)
4, 13" x 15" pieces of Wool Batting

TOOLS

sewing machine
size 14-16 Universal needle
thread
fabric shears
pins
hand needle

SEAM ALLOWANCES

- Baste at 1/4"
- Sew seam at 1/2"
- All batting is 2 layers

TIPS & TRICKS

- Instructions are written with interior and exterior for clarity, however, these slippers are reversible.
- Pin a lot because you are working with many layers. If you are having trouble, try using a walking foot
- Sew on the batting side vs the fabric side
- Use your notches to line everything up
- Use a size 14 Universal needle
- Don't worry about puckers. They will fluff out.
- Don't clip notches deeper than 1/8"
- Remember, there is no such thing as perfect!

CUT

Essex/interior: cut 2 foot beds and 2 toe pieces

Flannel/exterior: cut 2 foot beds and 2 toe pieces

Knit fabric: cut 2 heel pieces on fold

Batting: Cut 4 foot beds and 4 toe pieces

TOE

Assemble the toe by placing 1 Flannel/exterior toe piece and 1 Essex/interior toe piece right sides together, then stacking on top of 2 layers of batting (fig. 1).

Stitch all layers together on the inside curve (fig. 2).

Clip curve and turn right side out, making sure the batting is sandwiched between the two fabric layers.

Matching notches, baste all other layers together (fig. 3).

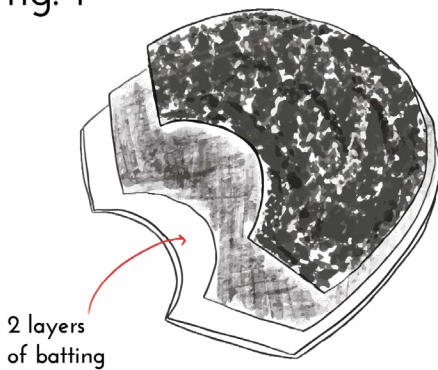

fig. 2

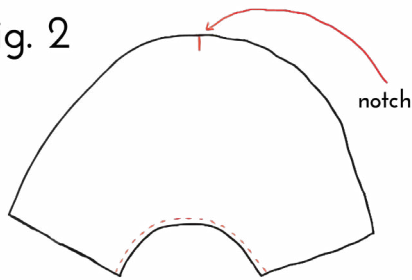

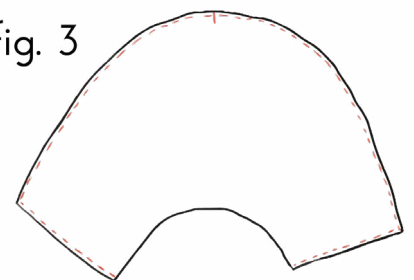

fig. 3

ATTACH TOE & HEEL

Attach 1 heel piece to the basted toe piece by folding the heel piece in half right sides together and lining the heel notch up with toe piece at the straight side.

Make sure the center notch of the heel piece lines up with the inside corners of the toe pieces (fig. 4).

Sandwich the basted toe piece in between the two layers of the heel piece right sides together and sew the straight sides (fig. 5).

Trim and turn the heel piece right side out.

Baste the unsewn heel edges together.

fig. 4

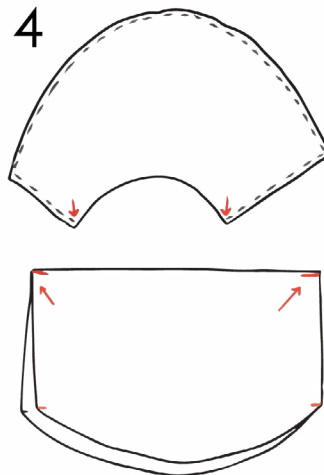

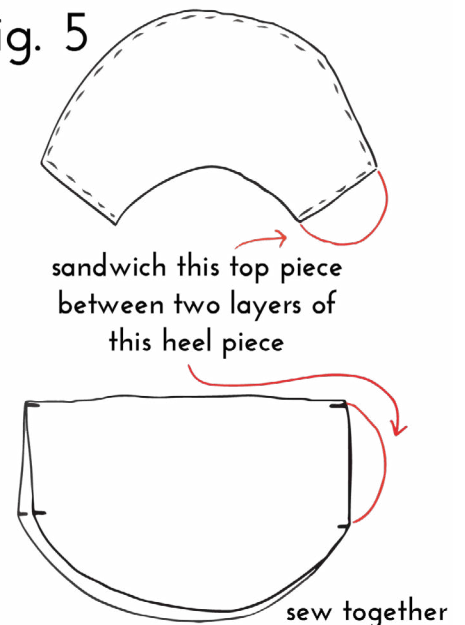

fig. 5

FOOT

Assemble foot piece by basting wrong side of Essex/interior piece to two layers of batting (fig. 6).

With right sides together, sew toe-heel piece to foot bed piece.

Place Flannel/exterior foot piece on top of sewn foot bed and toe-heel pieces, right sides together (fig. 7).

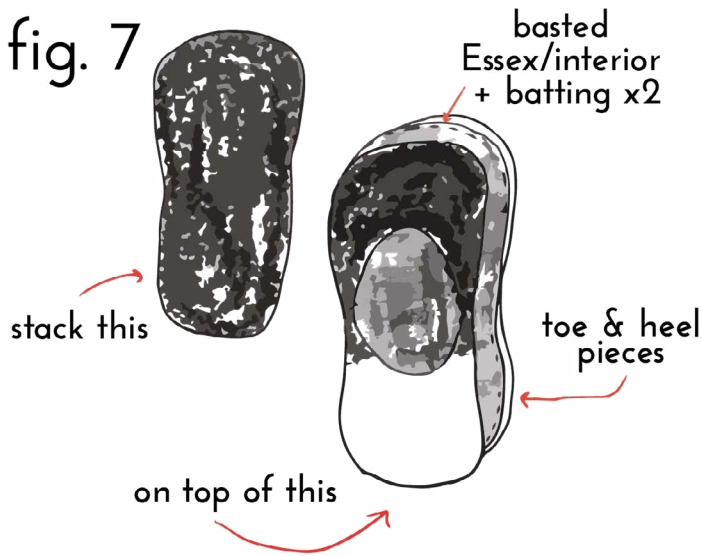

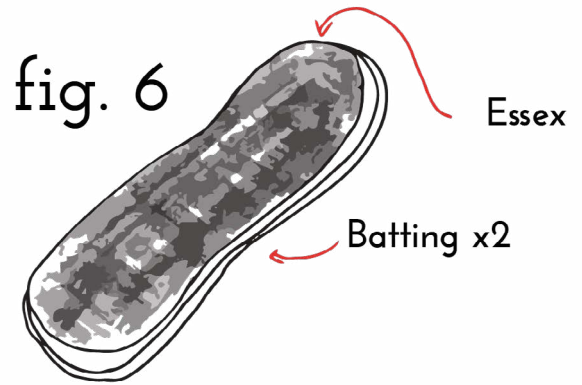

Sew together leaving a 4" opening in one of the straight sides (for turning) (fig. 8).

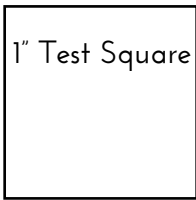

Clip curves and grade seam allowances if necessary.

Turn the slipper right side out and hand sew the opening closed using an invisible stitch.

Now do that again for the other slipper!

Enjoy your new pair of cozy cloud slippers!

- XS Women's 5 - 6
