ADDITIONAL MATERIALS NEEDED

Printer, tape, sewing machine, twin machine needle, serger, coordinating thread, fabric shears, pins, marking tool, measuring tape, iron, sewing gauge.

BEFORE YOU BEGIN

Print & assemble your paper pattern pieces. When printing, make sure to turn off scaling in your printer settings. You can check this by measuring the 1" square on the first page of your printed pattern. Trim left side and bottom of each page and tape together according to the assembly guide, lining up edges and matching triangles.

Wash, dry & press your fabric before cutting out your pieces. Launder it the way in which you will care for your finished garment. This will ensure that your garment fits the same every time you wear it.

Measure yourself at bust, waist and hip, and use the chart to select your size. The One Hour Top is designed to fit with some positive ease. If your bust measures to a different size than your waist and/or hips, you can most likely follow your hip size for this pattern. Check the chart for finished garment measurements to see the actual measurements of the finished top.

For **lengthening or shortening** the pattern, check the finished length measurement on the chart. If you would like to adjust the length of your garment, you can alter your Front(1) and Back(2) piece by adding the amount you would like to the bottom hem.

CUTTING INSTRUCTIONS

Trace both pattern pieces onto your fabric before you begin cutting.

CUTTING LAYOUT

56" + Wide Fabric - All Sizes

SEWING INSTRUCTIONS

Seam allowance is 1/2" for all seams.

1: Serge Shoulders

With right sides together, pin Front to Back at both shoulder seams, and serge together. (If you are using a regular machine you can use a narrow zig-zag stitch or a stretch stitch.)

Press seam allowance towards back of garment.

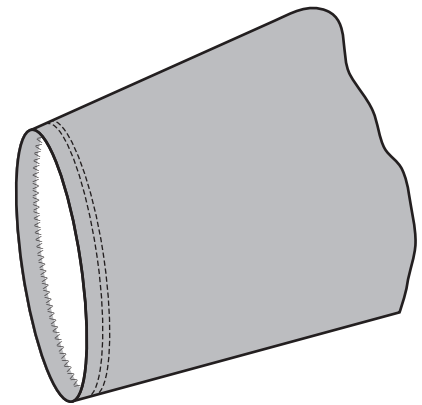

2: Serge Side/Underarm Seams

With right sides together, pin Front to Back at both side seams, and serge together. Press seam allowance towards back of garment.

3: Finish Sleeves

Press raw sleeve edge under $\frac{1}{2}$ ", to inside of sleeve. With a twin needle in your sewing machine, and the right side of your garment facing out, stitch the sleeve hem at $\frac{3}{8}$ ", catching the raw edge of your sleeve to finish. Repeat for other sleeve.

4: Finish Neck and Bottom Hem

Press raw neck edge under $\frac{1}{2}$ ", to inside of collar. With your twin needle, stitch the neckline at $\frac{3}{8}$ " to catch the raw edge, just like you finished your sleeves. Now repeat at the bottom hem in the same way.

You are all finished! That was a breeze!
