

# COMPUTER BUG ARTBYTES

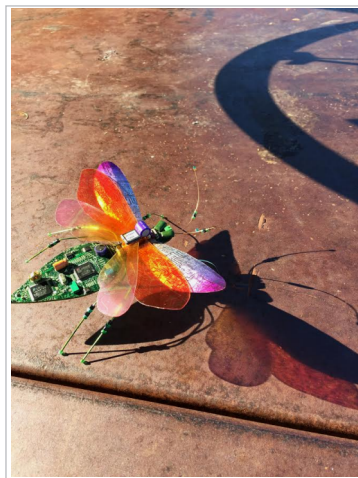

Computer Bug ArtBytes is a collection of delicate art sculptures made from recycled materials, computer components & unique materials. Chicago designer Carmi Plaut, and the SmashUp team, have designed these 'good feeling' gifts & accents for both home & office. No two bugs are alike & each a handmade unique sculpture & virus identity.

Each Computer Bug is a symbolic protector and guardian against real viruses & infections that's surround our technology focused world.

"No updates or scans needed with our guardian computer bug art creations"

We embrace Fair Trade standards & compatibility. We promote improving & protecting the environment, and the people who create our products. Every product is handmade by artisan craftsmen and each piece signed and numbered edition by our Chief SmashUp designers.
