Brands

▶ HCI Fitness

- ▶ Since 1992, HealthCare International has been family owned and operated with dedication to providing affordable quality products with exceptional service!
- ▶ Products: Recumbent Cross Trainers, Upper Body Ergometers, Total Body Trainers, Treadmills, Dynamic Unweighting Systems, & Active and Passive Trainers.

MONARK

SPORTS & MEDICAL

▶ Monark Exercise

- ▶ HealthCare International is the Exclusive North American Distributor
- ▶ Products: Testing Ergometers, Stationary Cycles, Recumbent Cycles, & Upper Body Ergometers
- ▶ *ACSM Discounts Available*

HCI Fitness Advantages

▶ ***Low Starting Resistance and Speed***

Dedicated to accommodating a wide range of users with different activity levels, HCI Fitness products offer a low starting resistance **as low as 5 watts**. HCI Fitness manufactured Treadmills start at **0.1 MPH** and can be adjusted in 0.1 increments.

▶ ***Bi-Directional Movement***

HCI Fitness products offer bi-directional movement for **advanced** strength, balance, and gait training. Changing the direction of exercise not only reduces risk of injury but also helps **motivate** users and increase training sessions.

▶ ***Workout Summary Report***

Many HCI Fitness products have a built-in USB workout report function that allows facilities to track progress with key metrics such as **WATTS** and **METS**

▶ ***Customizable Programs***

Clinicians can customize programs including **Constant or Ramping WATT** and **ISOKENTIC** resistance programs to tailor the training session to the user.

▶ ***Increased Accessibility***

HCI Fitness products are easy to access with removable seats to accommodate wheelchair access, oversized **swivel seats**, low treadmill step-up heights, **user weight capacity up to 500 lbs** and adjustable features to fit a wide range of users.

▶ ***Family Owned and Operated***

HealthCare International is proud to be one of the longest standing owned and operated fitness equipment manufacturers based in the USA! When you purchase HCI Fitness equipment you become part of the HCI Fitness Family!

Commercial Display

Featured Programs

- ▶ Isokinetic

894E Model is for Wingate Testing

Shipping Information

▶ ***Lead Time***

We strive to keep all units in-stock so that we can ship out upon receiving an order.

Transit time will take between 5-14 days depending on your location in the USA.

▶ ***Assembly Needed***

Our products ship 85% assembled and can be wheeled off the pallet when received by the customer. Typical items required for assembly includes: Handles, Pedals, Seat Back, and Display. All tools needed for assembly are included and in most cases optional white glove assembly will not be needed.

▶ ***Optional White Glove***

If needed our products can be sold with an optional white glove assembly.
