

LEGEND:

BLEED AREA 9" X 33"

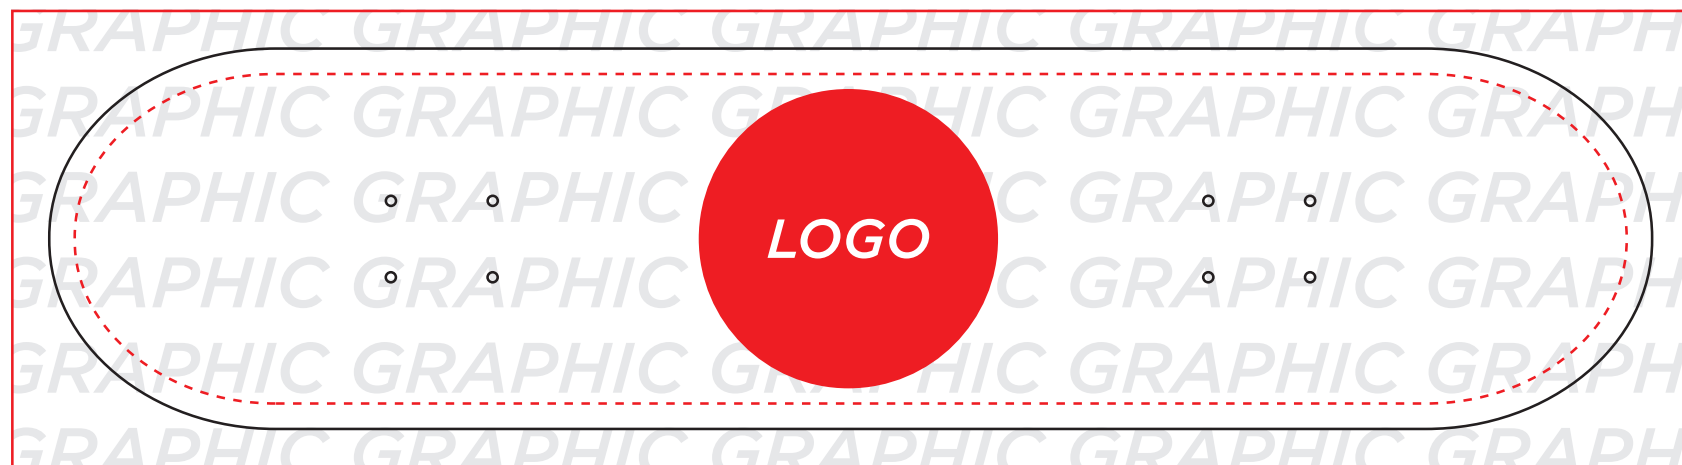

SAFE AREA 6.5" X 30.5"

ANY ART OR TEXT YOU WANT TO STAY SAFELY ON THE DECK, WITHOUT BEING CUT OFF, SHOULD BE WITHIN THIS DASHED LINE.

WHAT DIMENSIONS SHOULD THE ARTWORK BE?

Your artwork should always be setup for the full bleed size of 9" x 33" unless your deck is larger than 8.50" in which case please allow an extra 0.50" bleed on all sides. For Wiggle or Gothica, please be advised these decks are 33.25" long.

Any important graphic elements (logos etc.) should be kept within the safe area to make sure no cropping occurs, unless it is your intention.

WHAT FORMAT SHOULD MY ART BE?

Vectored art gives the best results when we are printing your artwork i.e. Adobe Illustrator, Photo Shop, PDF or other similar editable formats. Artwork should be a minimum of 150dpi (preferred 300dpi) to achieve a high standard of print without pixelation.

FONTS

Please outline any fonts used in your graphic using the 'Create Outlines' option in the 'Type' menu.

This will convert any fonts used to shapes so you will not be required to send the font file along with your artwork. This also prevents fonts being changed to default fonts if we do not have your specified font at our end.

ADDITIONAL INFORMATION

Keep all your artwork within the artwork layer, do not alter the other layers or flatten the template. Incorrectly setup artwork files will have to be re-sent.

ANY QUESTIONS?

If you have any questions about your artwork, the template or anything else then please get in touch at info@skateboardprinting.co.uk / info@yourcustomskateboard.co.uk
