CREATING SPACE IN EVERYDAY LIFE

We know that clothes, shoes and things fill our homes. We have more things than we actually use and not enough storage for them. With smart storage solutions you will create an overview and everything will have its specific place. Smart storage solutions can give you valuable living space back, that you have lost to temporary solutions.

TRULY MADE TO MEASURE

With a made to measure storage solution you can use even your most challenging spaces for good storage. An adjustable solution let you re-arrange your storage. You can easily add, remove and reposition drawers, shelves and other pieces as your needs change. Elfa can be used in practically every space in your home thanks to its modular design and good looks. Smart details solves every specific storage need, from your clothing storage to your tools in the garage.

INGENIOUS STORAGE

The Elfa assortment is built on Swedish industrial heritage. Our product development creates clever functions with our own design based on storage knowledge since 1948. With it's exceptionally strong epoxy-bonded steel, Elfa can easily handle everything from a library of books to garden equipment and clothes.

SUSTAINABILITY

At Elfa we take pride in our long heritage of steadily progressing towards sustainable products and production. We work very hard to reduce our company's impact on environment and resources. The last year we have challenged ourselves and succeeded in optimizing a number of Elfa key products, keeping the high quality and durability of the system. This resulted in a decrease of the carbon footprint, but still with the same functionality, but even more ingenious.

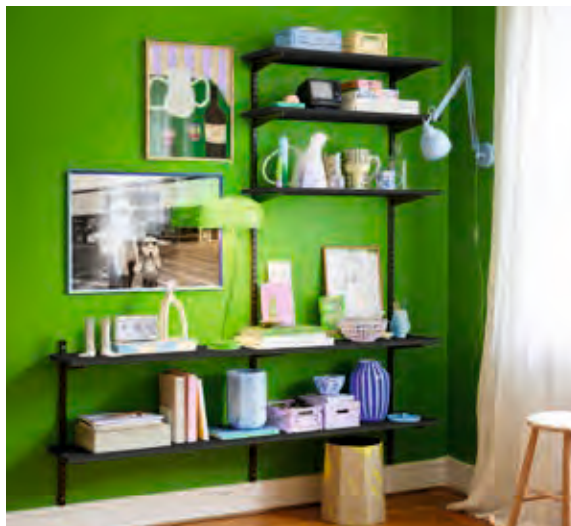

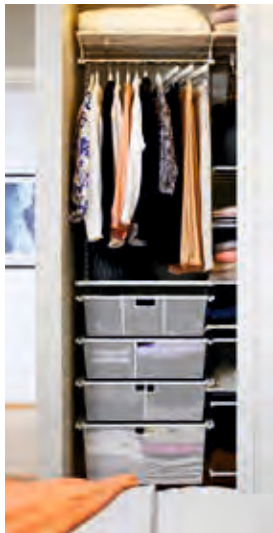

MADE TO LAST

Ever since it all started in 1948, we have been striving for high quality to make it last for a lifetime, and offer a 10 year guarantee. Read more on our website.

COMPLETE STORAGE SOLUTIONS

Be proud of your things and create an open storage solutions, or use sliding doors to cover up in style. Let us show you what you can do with your space, visit us in store or online on www.elfa.com

TOGETHER FOR A SUSTAINABLE FUTURE

Taking the long view is key when striving for a more sustainable living. Elfa products are timeless, durable and adaptable to ever-changing needs, making them an excellent basis for lifelong storage.

How can we learn to make more sensible choices in our everyday lives? Undeniably, many of us struggle to organize our living space and belongings. A more sustainable lifestyle would come easier if we kept everything in order.

SUSTAINABLE DESIGN

Some of Elfa's Classic interior products are redesigned, making them even more functional and appealing. What is more, with the redesign, these products' carbon footprint are significantly lowered, while the load capacity and high quality are equally high. That is what we call ingenious invention. "It's sustainable design that really matters if we want to minimize our impact on our world" says Peter Nilsson, R & D manager at Elfa.

**"It's sustainable design that really matters if we
want to minimize our impact on our world"**

Peter Nilsson, R & D manager at Elfa.

MADE TO LAST

The daily use of a storage solution exposes it to a lot of wear and tear, something that requires craftsmanship and materials of the highest quality, to maintain a lifetime of service. But rest assured, Elfa's products are of the highest quality and last for decades.

CLOSET/
WALK-IN CLOSET

Interior: Click-in system, Top hang (Graphite)

CLOTHES IN ORDER, A DREAM WITHIN REACH

Whether concealed behind sliding doors, or in full view, there are stylish, ingenious solutions for optimal use of unused space. By creating a dedicated area, you get a better overview of your entire wardrobe, as well as a more restful

Use Mesh drawer divider to keep your clothes in order.

Create space and a better overview with Gliding tie and belt rack.

Interior: Click-in system, Top hang (White)

Add personality to your walk-in closet by planning for a lot of open shelves, for exposing your favourite things.

Plan for a styling station in your walk-in closet by using mesh baskets on the hang standards and adding a mirror.

Separate your rental clothes from your other clothes by planning a separate section in the wardrobe.

Interior: Click-in system, Top hang (Graphite)

Interior: Click-in system, Top hang (White),
Décor design (White)

DÉCOR COMBINES FUNCTION WITH A SOLID LOOK

The Décor range builds on the ingenious Elfa Click-in system but adds warmth and clean lines with fronts, shelves and other details in solid wood.

Décor in white creates a light Scandinavian look while in grey it adds a warm contemporary feeling.

Place a mirror in your solution and create a make up station. The mirror reflects the light and creates an airy feel in the room.

The wooden details creates a luxurious feel to your closet and enhances precious things you want to expose.

An accessory tray in light grey velvet fabrics will hold all your small accessories in place, and creates a luxurious walk-in closet feel.

A Décor solution has no walls in between the sections, so that when you hang your clothes you get a good overview and an airy wardrobe, yet with a solid wooden look.

HOW TO PLAN A WARDROBE THAT LASTS

Is your wardrobe full of clothes you never use? If you want to contribute to a more sustainable living, the closet can be a good place to start. By using garments many times, sell or repair them, you prolong their life. And by storing them accessible and with good overview, the risk of you saying "I have nothing to wear" decreases dramatically. And hopefully impulse shopping as well. Here are some tips to help you plan a wardrobe that will help you towards a more sustainable wardrobe.

Hang as much as possible, preferably at two heights. The benefits are great overview, easy access and clothes that are free of creases.

Every time you wash your clothes, they wear out. Prolong the life of your clothes, and reduce your energy use, by washing the clothes more seldom. Until next time, hang the clothes on hooks and holders in your wardrobe or on the the back of a door.

Ever considered renting clothes? Buy timeless and basic garments and add rented pieces to spice up your outfit and save both money and closet space. Dedicate a special section in your closet for these garments.

Your clothes lasts longer if you care for them. For example, use pant racks in your wardrobe for crinkle-free and separated pants and skirts.

Knitted sweaters can loose their shape on a hanger, so use mesh drawers with dividers to keep them fresh and neatly organized.

Care for your shoes by storing them on shelves and racks – not in a pile on the floor.

Dare to let go! Your unused clothes can make someone else happy. Give away, sell or swop clothes. Place a dedicated bag in your closet, ready to go.

SUSTAINABLE WARDROBE TIPS

- 1 THINK "FLEXIBLE"** when buying storage. Choose a solution which is easy to rearrange and add on to, when you needs changes.
- 2 QUALITY AND TIMELESSNESS** is to prefer to cheap buying of poor quality items. This goes both for the closet itself as well as for the clothes in it.
- 3 PLAN FOR SUSTAINABLE HABITS** by sorting out clothes at the shift of seasons. Choose interior which allows for good overview of your clothes. That way you can easily see what clothes you've used and not. For items you don't use, give away, sell or swap with a friend.
- 4 EXTEND THE LIFE OR YOUR GARMENTS** by storing them properly. Airy shelves and special functions for i.e pants and shoes keep your clothes separated and fresh.

A wardrobe with good overview and garments sorted by colour or type make finding an outfit easier. And reduces the urge for impulse shopping.

Prepare outfit of the day with Décor expandable valet rod.

Place the clothes in your closet in the order you wear them top down. Interior solutions adapted to each item will make your day run smoother.

Care for your accessories.

Choose a closet interior that matches the room.
That will create calm and add to the style.

Décor design (Grey)

BOOKSHELVES

Clean, aesthetic melamine shelves mounted on wall bands with brackets, the so called Shelving system, has become a true Elfa classic. They can be found in homes all over the world and are often featured in acknowledged interior magazines. The simple, classy design of the bookshelves allows for the books and other interior details like vases, posters or potted plants to shine.

NEW

Interior: Shelving system (Graphite)

Thanks to its simple design the classic Shelving system let your books and other interior details shine.

Shelving plug-in kit is easily mounted thanks to plugs and predrilled holes in the shelves.

The Shelving system enables you to use all the space, for example under a sloped ceiling or above a door.

Book supports will help you keep your books in neat rows.

HOBBY & HOME OFFICE

Regardless of the purpose of a home office, whether it's more of a hobby room or a creative sewing corner, structure is needed to keep it tidy. With smart storage ideas and products adapted for storing files, pens, paper clips, scissors etc you can avoid a mess on the desk and bookshelves.

Interior: Shelving system (White), Melamine shelves

The little paper bag[®]

This bag is made from organic paper. It is 100% natural. 180g/m² double-layer paper: white kraft layered with brown kraft. Capacity: 2.16m³

Create a custom storage for the teen bedroom with smart storage such as...

Let the kids have their own dedicated space in the home office. Move the desktop to adjust it to the kids height as they grow.

If the space is very limited, a door can serve as a base for your home office or hobby things.

Interior: Shelving system (White), Melamine shelves

CHILDREN'S SPACE

Children's need for space in their everyday play is endless. At the top of many parents' wish list, is a working storage solution. Children want it too. Picture clothes and shoes living happily side by side with toys and books. A storage system created to individual needs. That can be adapted to seasonal changes and to new needs when your kid grows. A system that creates good order and overview.

HALLWAY STORAGE

Interior: Click-in system, Top hang (White), Décor design (White)

Interior: Click-in system, Top hang (White)

WELCOME HOME TO AN ORDERLY ENTRANCE

First impressions count. The hallway gives visitors that first glimpse as you welcome them into your home. It's also our first and last point of contact as we rush in and out, going about our busy daily lives. Functional storage creates a space where coats, bags and shoes coalesce and keys and purses can be easily found. It creates an orderly entrance that allows you to focus on the important tasks for the day ahead, then welcomes you to hang up your coat, slip off your shoes and unwind when you return home.

Create space in the entrance for incoming and outgoing packages.

On door storage with the new Shoe rack for optimized use of space.

Hang your handbags on hooks instead of placing them on the floor.

Use compartments to keep track of each little thing in the hallway. The solid fronts will keep the impression calm and stylish.

Interior: Click-in system, Top hang (White)

A storage board can work as a hub in your hallway, for shopping lists, invitations and small items that otherwise end up laying around the house.

Add mesh baskets behind hanging jackets and coats, to make use of the depth.

A smart way of using all your space is to place shallow shelves in combination with deeper wire shelves.

When expecting guests, hooks on the side of the solution makes sure there is always some extra space.

Divide a Wire shelf basket into different compartments for each family member. Add Shelf hooks underneath for easy hanging of clothes and bags.

LAUNDRY & CLEANING

In many homes the laundry room is a forgotten room. Still, it's a space that needs smart storage solutions to create an efficient workflow. With careful planning you can create all the space you need to sort and fold clothes, store detergents, linen, towels and clothespins. A spacious laundry room will make weekly or even daily visits more agreeable. Pleasant and maybe even fun?

Create all
the extra space
you need

Space to sort and fold. Practical shelves at the right height make it easy to fold and sort the clean laundry. And if you give each family member their own drawer, it will be easier to bring the newly folded laundry to your wardrobe.

The Drying shelf can be folded when not used, allowing you to hang both longer and shorter laundry.

Plan for a special space for ironing with a dedicated drawer for clothes to be ironed and a Valet rod for ready clothes.

GARAGE & STORAGE

Storage of outdoor furniture, garden tools and sports gear often leave little or no room in the garage for the car. Storing things along the walls is the obvious solution. Elfa makes room for tools, gadgets and other equipment. Seasonal storing of skis, golf and hockey gear, paint cans and all your stuff for the garden will fit perfectly.

Interior: Click-in system, Top hang (Platinum)

Seasonal storage can easily change place when seasons change, thanks to the flexible Click-in system.

Keep your sports equipment organised by using special functions, like the Mesh storage bag.

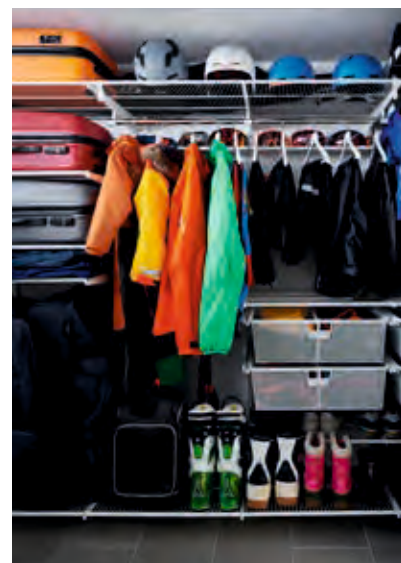

Store the kids' sports gear accessible but off the floor, with the help of a Storage track with hooks and holders.

EVERYTHING SORTED

One of the best parts of having spare spaces like a garage or basement? You can store things you can't or don't want to keep in your living area. No surprise then that toilet paper and candles are often on the shelves side by side with sports gear and home appliances. With good storage, you get room for even more – for better or worse, maybe. However, one thing's for sure: order brings peace of mind and saves time, especially when you have so many different kinds of things to look through.

Workout clothes can often be used again before washing. In an open storage solution, they're close at hand and you don't have to mix them with clean clothing.

Does your family have a lot of workout clothes? Give each person their own storage space to quickly find the right stuff when heading out.

New! The "gift wrap rack" is fun to say, and it keeps your wrapping paper organized.

POTENTIAL STORAGE SPACE

Look around your home. Potential storage space is everywhere – in your kitchen, your hallway, bedroom and basement. Look even further and you will find space you didn't even know you had. Do you have the optimal solution for the space under a staircase or a sloping ceiling? Identify the unused or hidden places in your home.

A dish rack can be used for more than the dishes.

A tiny space can be turned into spacious pantry by using the wall space all the way up to the ceiling.

The space under a staircase can be turned into stylish storage with the Shelving system.

Hide the laundry behind a curtain.

Functional storage is easy

At Elfa you will find three smart interior systems that help you store small, medium and large. All our products can be adapted to your needs and to the space you have at home.

PLAN YOUR STORAGE

WHAT TO STORE

What do you need to store?
List your storage needs.
Clothes, gear, tools, laundry, books etc.

MEASURE

You need the measures of your space to create an optimized and made-to-measure storage solution.

PLAN YOUR INTERIOR

Choose the one of our three systems that best suites your needs.

STORE HIGH AND LOW

Place the things you seldom use in a way where they do not take valuable place from your everyday use.

USE THE SPACE

Make sure you have space for long robes and shorter jackets. And ensure you make full use of the space under hanging clothes.

FREE SURFACE

Create an open space for things you need daily. A narrow shelf with hooks provides easy access. A solid shelf creates useful place for offloading things.

GRAB 'N' GO

Place the things you use often at a height that is easy to reach.

SEE-THROUGH

Mesh and wire baskets makes it easy to find what you are looking for.

GLIDING FUNCTIONS

Use gliding units where your visibility is limited and where it's difficult to get a natural overview.

PLAN ONLINE

In our planning tool you can easily create your own storage solution with a drag- and drop function. It doesn't matter if it is a small bookshelf or a full scale wardrobe solution. Add special interior functions.

www.elfa.com

Three ingenious interior systems for every occasion

CLICK-IN SYSTEM

Everything hangs on the Top track. Mount the Top track onto the wall.

Attach the hang standards and click in the brackets. Add shelves and drawers, and you have the base functions.

Add functional accessories designed specially for your wardrobe, laundry or garage.

Page 56

Click-in system Top hang is available in 3 colours.

Décor products with wooden details are available in 2 colours.

DRAWER SYSTEM

A floor based drawer system, build on frames, crossbars, and drawers. Can be placed in closets, freestanding, and on wheels.

Perfect for clothing storage. Can be combined with Wire shelf and Closet rod.

Drawers can be used in existing wardrobes or cupboards, when combined with runners.

Page 96

SHELVING SYSTEM

Elfa's classic wall mounted "Sparring" Shelving system. Based on wallbands screwed onto the wall, mount the brackets and combine with solid shelves.

Perfect as bookshelf or sideboard, and can be combined with our different book supports.

Easily placed under staircase or sloped ceiling, since the wallbands and shelves can be adjusted.

Page 104

The shelving products are available in 2 colours.

Wallband and bracket for solid shelf.

GET SET IN 3 SIMPLE STEPS

1. CHOOSE TOP HANG OR FREESTANDING

We recommend the Top hang solution to all conventional walls. But if you can't or don't want to screw in your wall, there is a freestanding option.

TOP HANG Page 58

A wallbased system that hang on the Top track The only thing you screw onto the wall is the Top track.

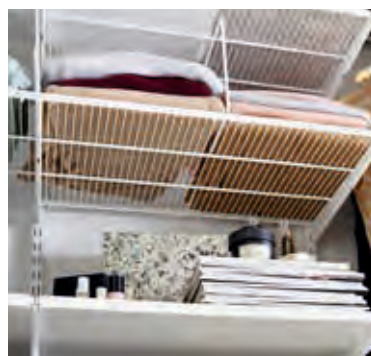

FREESTANDING Page 60

A freestanding solution suitable for creating an island of storage or for challenging spaces.

2. ADD SHELVES AND DRAWERS

Add shelves and drawers that suit your need.

SHELVES Page 63

DRAWERS Page 65

3. COMPLETE FOR SPECIFIC NEEDS

Add functional accessories to complete your solution for different usage.

CLOTHING

GARAGE & STORAGE
Page 82

HOBBY & HOME OFFICE
Page 88

ON DOOR STORAGE
Page 92

TOP HANG

Top hang is one of the mounting options within the Click-in system. Everything hangs on the Top track.

Screw the Top track onto the wall. Hang the hang standards on the track and click in your storage functions. Complement with the features you need for storage to fit e.g. clothing, garage or laundry room. Since the Click-in system top hang is able to cut-to-size, it's ideal for virtually any space where the wall is conventional.

Screw the Top track into the wall, leave minimum 15 mm gap to the ceiling or cornice.
For the best visual impression, we recommend to mount the Top track at the height where you want to place the top shelves. Hang the hang standards on the Top track.

Hook brackets in place.

Click in your storage functions.

To allow the system to stay even more stable and tight to the wall, the Hang standard can be fixed to the wall with a screw.

TOTAL WIDTH OF SOLUTION

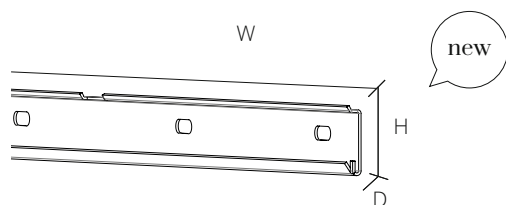

Click-in system top hang

Note: Section width in table includes Top track end stops 4 mm on each side of the solution.

Section (width mm incl. Top track)	Width 45 (cc: 451 mm)	Width 60 (cc: 607 mm)	Width 90 (cc: 902 mm)
1	487	641	936

Adapter used to join Extension Hang standard with a Hang standard.

COLOUR	ART. NO.	PRICE
White	428010	5,8
Platinum	428080	6,4
Graphite	428025	6,1

STANDARD COVER

Plastic cover strip that clips into the Wallband or Hang standard. Gives a streamlined solid look by covering the mounting recesses. Comes in a roll and can be cut to the desired height.

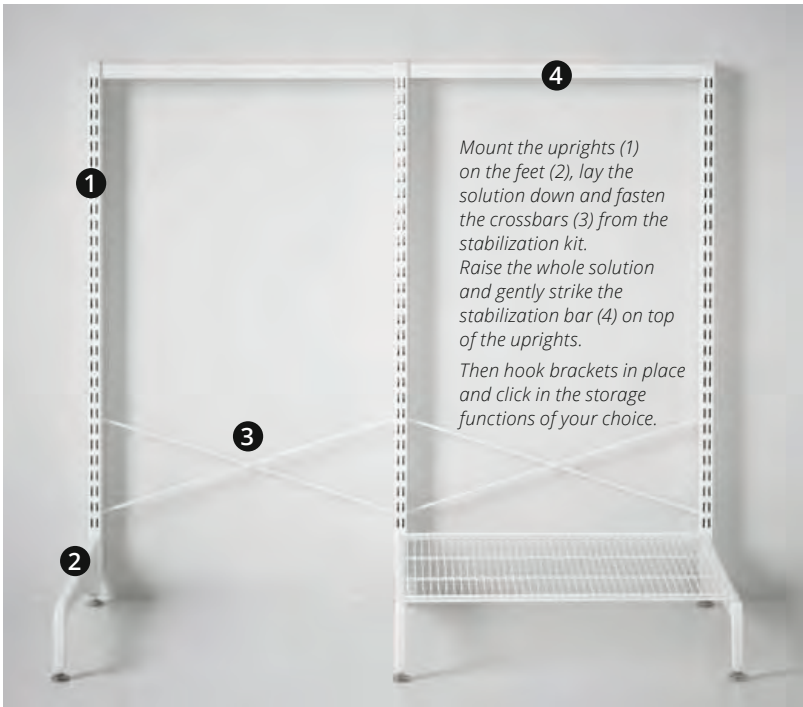

W x D x H	COLOUR	ART. NO.	PRICE
19 x 7 x 4224 mm	White	427410	19,6
	Platinum	427480	19,6
	Graphite	427425	21,6

FREESTANDING

Freestanding is one of the mounting options within the Click-in system. A floor based solution where you click in your storage functions. Choose between double or single-sided.

This option is ideal when you can't – or don't want to – mount your system directly on the wall e.g. when the wall can't carry the weight, there is a window or when you want to leave the wall as it is. It's also perfect as a room divider, since the upright standards are double-sided. Complement with the features you need for storage to fit e.g. clothing, garage or laundry room.

If you want a Wire shelf at the bottom, use the enclosed clip (5).

MEASUREMENTS COMPLETE ASSEMBLED SYSTEM

HEIGHT		DEPTH

W x D x H	COLOUR	ART. NO.	PRICE
435 x 155 x 1980 mm	White	334910	85,7

Customise your storage to fit any space

You can customise your storage solution to suit the measurements of your space by either combining sections in standard width, or if needed cutting products to fit your space.

COMBINE SECTIONS IN STANDARD WIDTH

The Click-in system is easy to customise. It is based on standard sections in width 45, 60 and 90. Customise your storage solution to fit the dimensions of your space by combining sections in 45, 60 and 90 widths next to each other.

45

SECTION WIDTH: 451 MM
Choose among all interior products.

60

SECTION WIDTH: 607 MM
Choose among all interior products.

90

SECTION WIDTH: 902 MM
Choose among different kinds of shelves, wire shelf baskets and accessories.

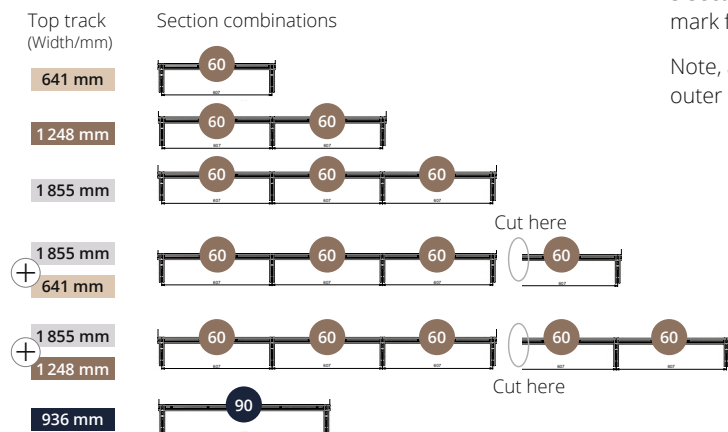

Example of combining sections to fit 2,20 m space

TOP TRACK PLANNING

The widths of the Top tracks are designed to fit with standard section widths, to make planning and building a solution easy and avoiding the Top track to protrude on the sides of the solution.

See recommended Top track widths below:

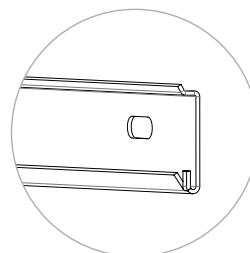

CUT PRODUCTS TO FIT SPACE

Sometimes combining standard sections is not enough to make the interior fit your space. You then have the possibility to cut interior products to create a section with a width less than the standard 45.

When combining Top tracks for solutions wider than 3 sections, the Top track can be cut at the cutting mark for perfect fit with the total solution.

Note, always keep the Top track end stop at the outer edges of the track.

Weight and security

SAFETY MARGINS FOR TOP TRACK AND HANG STANDARD

Always keep the Top track end stop at the outer edges of the Top track when building your solution.

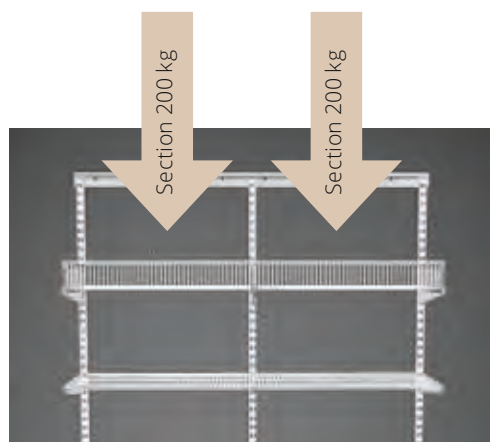

To allow the system to stay even more stable and tight to the wall, the Hang standard can be fixed to the wall with a screw.

TOTAL WEIGHT CAPACITY

A Click-in system top hang solution is based on sections. A section is the area created between two hang standards.

NOTE! Each section is designed to hold 200 kg load.

Make sure not to overload each product and to place your load evenly. Find each product maximum load in the list.

SECURE THE CONDITION OF THE WALL These recommendations are based on your wall being without defects. It is your responsibility to secure the condition of the wall and that it can withstand the load that will be applied.

USE OUR ASSEMBLY INSTRUCTIONS

The recommendations requires that you use our assembly instructions.

The recommendations also requires that you use the screws and plugs recommended for your wall type, see the recommendations in our assembly instructions at elfa.com.

DRAWER SYSTEM

DRAWER SYSTEM

A floor based system built on frames, crossbars, and drawers. Can be placed in e.g. closets and laundry rooms - freestanding, and on wheels. Combine with drawer units and add accessories to build a storage system fitting your needs and space e.g. under a staircase.

Drawers can be used in existing wardrobes or cupboards, when slid into runners, mounted onto the wardrobe side walls.

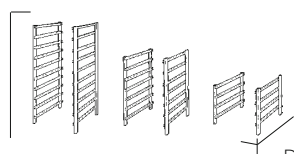

GET SET IN 3 SIMPLE STEPS

1. Choose crossbars according to your wished width of drawers.
2. Choose frames according to your wished height and depth of your drawer unit. The amount of frame side runners decides how many drawers you can fit and the height of the drawers.
3. Choose between wire and mesh drawers and accessories according to your needs.

The colour codes indicates which crossbars, frame sides and drawers that fits together.

best suits your space and
solution.

WALLBAND

For Plug-in melamine shelves p. 57

For Melamine shelves p. 60

3. ADD ON BOOK SUPPORT

Complement your solution
with book support

BOOK SUPPORT WITH CLIP

*Book support that slides onto the shelf.
Can be screwd to the shelf for additional
stability. Fits shelves 18-19 mm thick.
Sold in pairs (left + right).*

BOOK SUPPORT

*L-shaped book support. Placed freely on
any flat surface.*

BOOK SUPPORT FOR WALLBAND

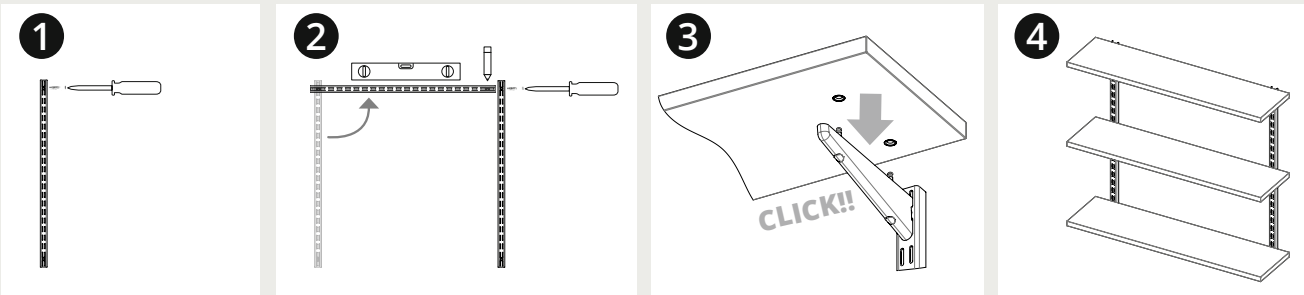

*Bookend mounted on Wallband. Can
be placed at any height. Available in
different sizes.*

SHELVING SYSTEM – PLUG-IN

Plug-in melamine shelves is a new addition to the Shelving system, to make the mounting of a Shelving solution even easier. Use the Wallbands as spacers to get correct distance between the Wallbands, and click the shelves onto the brackets by using plugs. With pre-defined dimensions (section widths) these shelves are most suited to be used in standard solutions such as side boards or bookshelves on open walls.

EASY TO MOUNT

SECTION WIDTH

The Plug-in melamine shelves section width (center-to-center measurement) is 640 mm. These shelves are not possible to combine with the Click-in system functions, since these systems have different section widths (cc measurements).

RECOMMENDED WEIGHT CAPACITY

- Considering following:
- secure the condition of the wall
 - use the screws and plugs recommended for your wall type
 - placed load evenly
 - use assembly instructions found at elfa.com

WIDTH 64= cc 640 mm	
Section width	64
Max recommended evenly placed load	30 kg

WALLBAND

The original wallband from 1964 designed by Birger Sparring for Plug-in shelving solutions. Available in 3 different heights and combines with Bracket for solid shelf D:27, Bracket plug set Plug-in melamine shelf, and Plug-in melamine shelf to build Plug-in shelving solution.

To make mounting of a Plug-in shelving system easier the Wallband can be used as spacer to get correct distance between the Wallbands (section width). The wallbands are screwed directly to the wall.

Width: 25 mm Depth: 16 mm

HEIGHT	COLOUR	ART. NO.	PRICE
700 mm	White	400410	7,4
2 screw holes	Graphite	400425	8,2
1340 mm	White	400510	12,3
3 screw holes	Graphite	400525	13,5
1980 mm	White	400810	16,6
4 screw holes	Graphite	400825	18,3

BRACKET FOR SOLID SHELF

Bracket that hooks into Wallband and holds Plug-in melamine shelves for storing. Combines with Bracket plug set Plug-in melamine shelf for easy mounting of Plug-in melamine shelves D:30.

Width: 13 mm

DEPTH x HEIGHT	COLOUR	ART. NO.	PRICE
270 x 49 mm	White	412710	4,4
270 x 49 mm	Graphite	412728	4,9

PLUG-IN MELAMINE SHELF

Shelf with a smooth melamine surface, suitable as a bookshelf. Pre-plugged and designed to install easily together with Bracket for solid shelf D:27, Bracket plug set Plug-in melamine shelf and Wallbands in H:70, H:134, H:198.

Height: 19 mm

WIDTH x DEPTH	COLOUR	ART. NO.	PRICE
780 x 300	White	447210	22,3
1420 x 300	White	447610	40,6
2060 x 300	White	448010	54,0

SCREW AND PLUG

For installation on wooden, concrete, stone or tiled walls. TFX 4.8x64 mm. Comes in a 10-pack.

ART. NO.	PRICE
470696	6,4

DRYWALL ANCHOR

For installation on drywall with a thickness between 9-26 mm. Comes in a 5-pack.

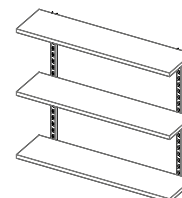

ART. NO.	PRICE
471815	8,8

BRACKET PLUG SET PLUG-IN MELAMINE SHELF

A set of pins and plugs to fasten a Plug-in melamine shelf to a Solid shelf bracket. Comes in a 6-pack.

COLOUR	ART. NO.	PRICE
White	173010	12,4
Graphite	173025	13,6

SHELVING PLUG-IN KIT

A great kit solution containing all you need to create a 3-shelf bookshelf. Easy to install thanks to the Plug-in technology and the hole pattern in the Wallbands. Use a level for installation.

W x D x H	COLOUR	ART. NO.	PRICE
780 x 218 x 700	White	440010	104,7
	Graphite	440025	115,1

SHELVING SYSTEM – TRADITIONAL

Traditional Melamine shelves is the classic shelf used in our Shelving system. It is the most flexible shelf and can be used for building tailor-made solutions for challenging spaces such as around a door post or under a staircase.

RECOMMENDED WEIGHT CAPACITY

Stipulating exact load recommendations for our melamine shelves is difficult. How much load the shelves can carry, is based on factors such as:

- How long distance between the brackets?
- Have the shelves been cut?
- Are the goods on the shelf evenly placed?

Therefore – as a directional weight recommendation – we suggest you check out the table below where we have stipulated weight recommendations for melamine shelves when the wallbands are placed with the following CC-measurements:

Section width	45	60	90
Max recommended evenly placed load	40 kg	30 kg	20 kg

RECOMMENDATIONS FOR GLIDING FUNCTIONS COMBINED WITH WALLBANDS

For gliding functions we recommend that you use the Click-in system for easier assembly and to increase flexibility in your storage.

If you still want to use wallbands it is important that you have the exact center-to-center (cc) dimensions according to the table.

WIDTH 45 Sections excl. closet rod					cc=451 mm
Sections	1	2	3	4	5
Total width (mm)	476	927	1378	1829	2280
WIDTH 60 Sections excl. closet rod					cc=607 mm
Sections	1	2	3	4	5
Total width (mm)	632	1239	1846	2453	3060

WALLBAND

The original wallband from 1964 designed by Birger Sparring. Screwed directly to the wall and supplemented with desired storage features such as Solid shelf bracket, Solid shelves or Plug-in melamine shelves. Available in different heights. Can be cut.

Width: 25 mm Depth: 16 mm

HEIGHT	COLOUR	ART. NO.	PRICE
316 mm 2 screw holes	White	400310	5,0
700 mm 2 screw holes	White	400410	7,4
	Graphite	400425	8,2
