AXIL TRACKR Bluetooth Muffs reduce harmful loud noise down to safe levels below 82dB and enhances clarity of surrounding low level sounds such as conversations and announcements.

The ergonomic volume control knob allows for total adjustment of the two built-in omni directional microphones, while built-in wireless capability enables hands-free call and music enjoyment. You can also connect to a playing device via the 3.5mm aux port.

- ◆ **WIRELESS PAIRING**  
Turn the unit on and hold the BT Button down for 1 second. Pairing will initiate and the blue LED will flash every 2 seconds. Select the name "EMO30BT" in the Bluetooth settings on your phone or mp3 player to connect.

- ◆ **ANSWER CALL**  
Short press the BT Button to answer an incoming call.

- ◆ **REJECT CALL**  
Long press the BT Button to reject an incoming call.

- ◆ **END CALL**  
Long press the BT Button to reject an incoming call.

- ◆ **LAST NUMBER REDIAL**  
Double press the BT Button to re-dial the last phone number.

- ◆ **AUDIO PAUSE/PLAY**  
Short press the BT Button to pause/play music.

- ◆ **CALL ON HOLD/WAITING**  
During phone calls, if a new call comes in double press the BT Button to switch from the first call to the second call.

To switch back to the first call and end the second call, short press the BT Button.
