

GROUP ORDER INFO

Group orders of 12-19 pieces receive 15% off all brands. 20 or more pieces receive 20% off except for The North Face. For the North Face, our contract allows up to a 15% discount.

For orders of 20 or more, in any brand, you receive a free piece as the organizer. The free piece must be of the same value, and can not exceed the value of the average jacket price. (It is not a free piece for every 20 jackets).

Free shipping is included for 15 or more jackets, excluded is Alaska and Hawaii.

You can also mix styles of jackets and colors, so some can have a 20% discount and some a 15% discount. You may also mix designs and thread colors.

The price includes one chest location. If you would like an additional location of embroidery that would be an additional cost of \$7 and is not discounted. Back designs are priced based on size and stitch count. Heat transfer applications are also available upon request.

If you would like to use your own logo there is a \$50 digitizing fee for orders under 20 pieces. 20 pieces and over the fee is waived. I would need a high resolution image of your logo. If you plan to use your own logo and it has been embroidered before, it would be helpful if we could see a photo of it to help guide our digitizer. The fee also may be waived if the design is simple and something that we can do in house.

Inventory has been recently our biggest challenge with group orders. It's all still covid and supply chain related. Stock levels with my distributor are starting to get slowly better but it's still a challenge. Availability can change daily and in some cases hourly.

How it typically works is once I've answered all of your pricing and inventory questions, you collect the orders, and submit the spreadsheet. Once I receive it I will then send you an invoice, and once it's paid we will get everything ordered.

Group orders are currently running about 14+ days.

Please let us know if you have any questions!

We look forward to working with both you and your group,
