## Nude Nicotine – GC/MS Analysis Results

| Customer Name:  | Date of Sample Receipt:         | External Lot Number:    |
|-----------------|---------------------------------|-------------------------|
| You Got eJuice  | February 9 <sup>th</sup> , 2016 | N/A                     |
| Product Name:   | Date of Analysis:               | NN Analytics Sample ID: |
| Cherry Lemonade | February 9 <sup>th</sup> , 2016 | YG04                    |

Scope of Method  
to be Performed:

### Diketone Trio Analysis:

Aliquot is diluted 10:1 with methanol containing a known amount of butyric-d7 acid as an internal standard. The aliquot is then capped, mixed, and injected into the GC/MS system. Analyte identification is confirmed by no less than 3 unique ion fragments by the mass selective detector. Results are quantitated utilizing a calibration curve generated from certified reference materials.

| Analytical Compound                 | Description | CAS #    | Limit of Detection (LOD) | Results |
|-------------------------------------|-------------|----------|--------------------------|---------|
| 2,3-Butanedione (diacetyl)          | Diketone    | 431-03-8 | 1.08ug/mL                | ND      |
| 2,3-pentanedione (acetyl propionyl) | Diketone    | 600-14-6 | 1.26ug/mL                | ND      |
| 3-Hydroxy-2-butanone (acetoin)      | Ketone      | 513-86-0 | 1.01ug/mL                | ND      |

ND = Not Detected / 1ug/mL = 1ppm / 1000ug/mL = 1mg/mL

The above results are guaranteed accurate and precise to the best of our ability. Data has been checked and in accordance with Nude Nicotine's approved analytical protocols. I certify that all results in this report are adherent to this statement:

| GC/MS Operator and Analytical Report Prepared by: | Signature & Date: |
|---|-------------------|
| J. Rubenstein                                     |                   |

**Notes:** Samples were received in good condition with factory seals intact. Chain of custody was properly maintained during the entirety of the sampling and receipt process.
