

Customising Your Public Profile URL

You can customise your public profile URL when you change what appears on your public profile. Custom public profile URLs are available on a first come, first served basis. Members can only have one custom public profile URL at a time.

To change your public profile URL:

1. Click the **Me** icon at the top of your LinkedIn homepage.
2. Click **View profile**.
3. On your profile page, click **Edit your public profile** in the right rail.
 - Update your public profile settings will show up if you don't have a public profile. Learn how to enable your public profile visibility.
4. Under the section **Edit public profile URL** in the right rail, click the **Edit** icon next to your public profile URL.
 - It'll be an address that looks like **www.linkedin.com/in/yourname**.
5. Type the last part of your new custom URL in the text box.
6. Click **Save**.
