INGREDIENT DISCLOSURE:

BOOYAH CLEAN® NON-ACID INSTANT HULL CLEANER

Water - CAS # - 7732-18-5

Oxidizer - CAS # - Trade Secret

Surfactant - a naturally derived surfactant made from renewable raw materials including corn, and the oils from coconuts and palm kernels. It is non-ionic and it increases soil removal and emulsification. CAS # - Trade Secret

Thickener - used as a thickening agent and a ster to prevent ingredient separation. - CAS # - Trade Secret

pH Adjuster - used to assist with the pH balance as well as enhancing the cleaning performance and efficiency - CAS # - Trade Secret

BOOYAH CLEAN® NON-ACID INSTANT HULL CLEANER is designed to clean the dirtiest of hulls, removing waterlines, scum lines, fish blood and stains. The powerful marine grade ingredients are engineered to remove tough stains in a single application. Apply using a sponge or sprayer. When stains disappear, rinse well with fresh water. Some stains may require light scrubbing, or a second application.
