We asked our customers for feedback. Here's what they said:

Sensitive Skin and Eczema:

How has Mali Mali helped your skin?

"I've got very sensitive skin, for example I get eczema from my gluten allergies, and the list goes on. This product is a God send in the relief department. I highly recommend it." -Gena S.

What do you like about Mali Mali moisturizer?

"I love everything about the Soothing All-Over Moisturizer—the texture, the aroma, the long-lasting moisturizing, but especially the effect it has on my skin. I have very sensitive skin and am allergic to everything. I have problems with eczema on my elbows and the backs of my arms. **This moisturizer has had an incredible effect clearing and smoothing my skin and calming reactions and hives.** I love it!" - Sally S.

Dry and Itchy Skin:

Would you recommend this to a friend or family member for dry skin?

This is a repeat purchase - my daughter and I loved this moisturizer from the first time we tried it. It soothes dry and itchy skin and moisturizes perfectly without being greasy or too thick. It also smells terrific!" - Beverly L.

Psoriasis and Eczema:

How long until you saw a noticeable change?

"Immediately my skin, which is sensitive and tends to be splotchy, felt better. It began to look better in a couple of weeks. **The eczema on my elbows went away by the end of the first tube and does not come back as long as I keep using it.**"

What was your skin like before? How is it today?

"Red and sensitive, now clear."

Are there any experiences that your friends and family have shared with you after using the product?

"My son has really bad eczema around his eyes, and the Mali Mali has helped so much. He still has outbreaks but fewer."

What other products have you tried in the past that did not work before Mali Mali?

"Prescription Elidel and Eucerin." - Sue S.

As always, be well, do good.™
