QUICK INSTALL GUIDE

WARNING

THIS IS A HIGH PERFORMANCE PRODUCT TO BE USED AT YOUR OWN RISK!

Do not install this product until you have read and fully understand the following disclaimer of liability. The following disclaimer of liability sets forth the terms and conditions for the installation and/or use of this product. By installing this high performance product, the buyer acknowledges that they have read and fully understand this disclaimer and accepts its terms and conditions.

DISCLAIMER OF LIABILITY

Not legal for sale or use on pollution-controlled motor vehicles anywhere in the United States. Legal ONLY for off-road competition racing vehicles and cannot be used on vehicles that are operated on public streets, roads or highways. this product is not for sale or use in the state of California.

By Purchasing from SPE you understand that all products are for offroad use ONLY unless otherwise stated. Violations may result in a fine of up to \$32,500 per vehicle (or possibly higher depending on changes in the law). All penalties and/or fines for removing your vehicle's emissions equipment are the sole responsibility of the end user.

Snyder Performance Engineering and their successors, distributors, jobbers, dealers, and retailers (SELLER) shall in no way be responsible for any direct, indirect, or consequential damage resulting from improper installation and/or use of this product.

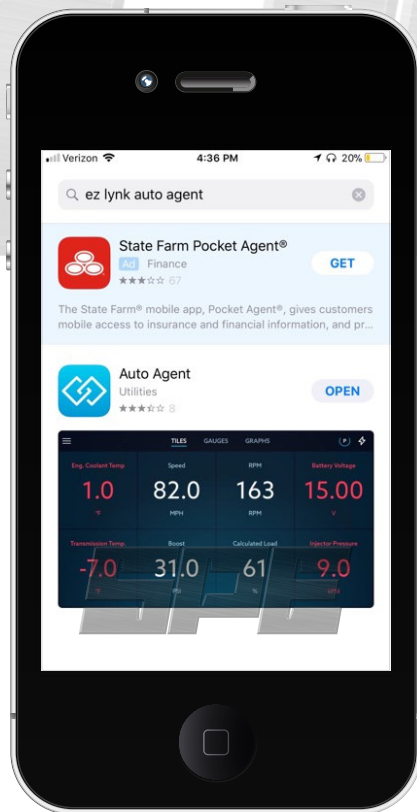

The BUYER/USER assumes all responsibility for any damage resulting from the use or misuse of this product. The buyer hereby waives all liability claims for the use of this product. The BUYER acknowledges that he/she is not relying on the SELLER's skill or judgment to select or furnish goods suitable for any particular purpose and that there are no liabilities which extend beyond the description herein, and the BUYER hereby waives all remedies or liabilities, expressed or implied, arising by law or otherwise, (including without any obligations of the seller with respect to fitness, merchantability, and consequential damages) or whether or not occasioned by the SELLER's negligence. The SELLER disclaims any warranty and expressly disclaims any liability for personal injury or damages. The BUYER acknowledges and agrees that the disclaimer of any liability for personal injury is a material term for this agreement and the BUYER agrees to indemnify the SELLER and to hold the SELLER harmless from any claim related to the product purchased. Under no circumstances will the SELLER be liable for any damages or expenses by reason of use or sale of any such products. The SELLER assumes no liability regarding the improper installation, misuse, or misapplication of its products. It is the buyer and/or installer's responsibility to check for proper installation.

TROUBLESHOOTING

Please read and understand all installation instructions before proceeding with the installation. If you have questions during the installation of this product, please call us at 724-966-5085

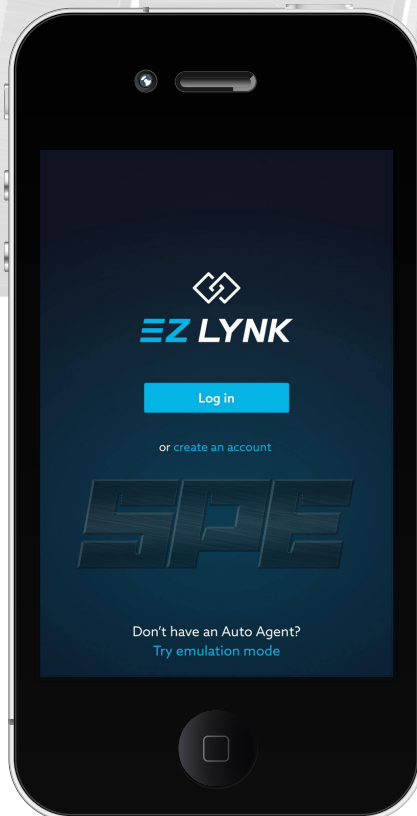

Step 1

Using your device, access the app store & download the EZ Lynk Auto Agent app.

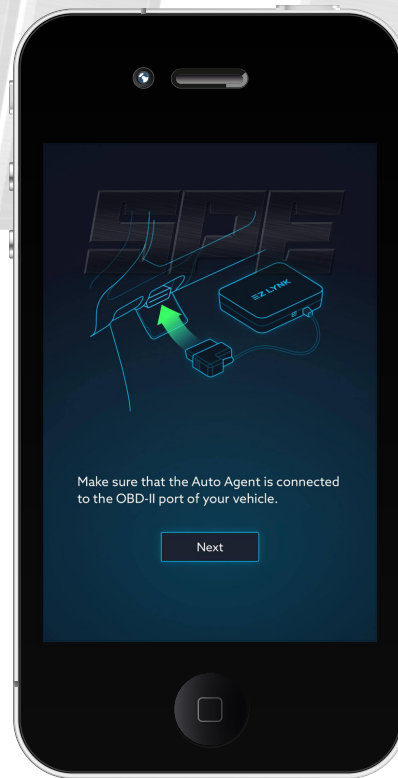

Step 2

Once the app downloads open the app & begin setting up your account.

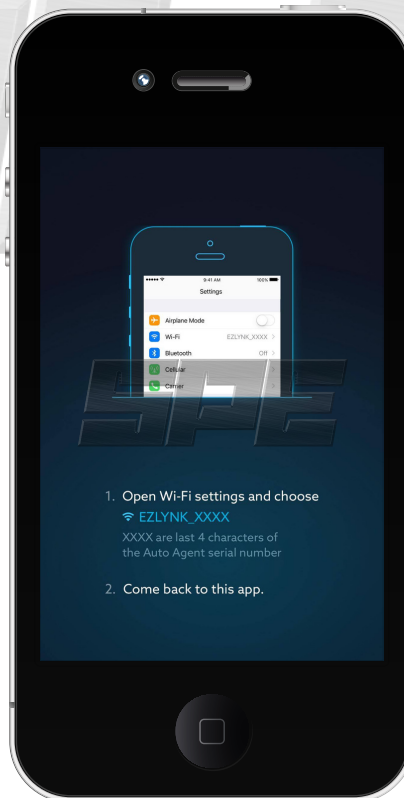

Step 3

Connect the EZ Lynk box to your truck via the OBDII port under the dash then tap next.

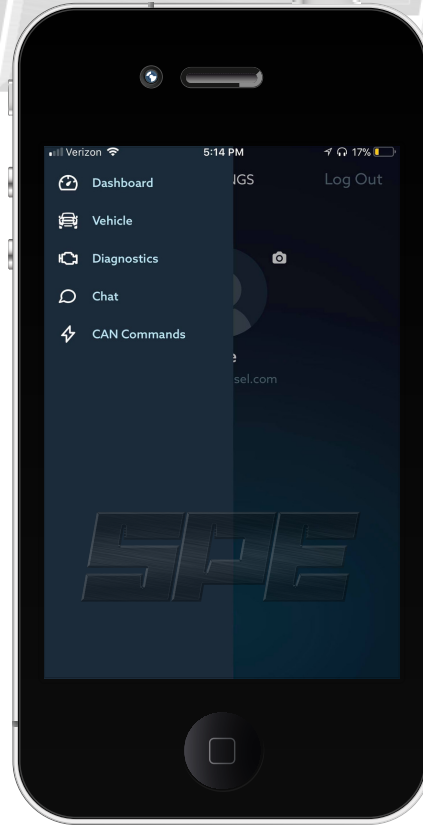

Step 4

Follow the on-screen prompts to set up the WIFI connection between your device and EZ Lynk.

Step 5

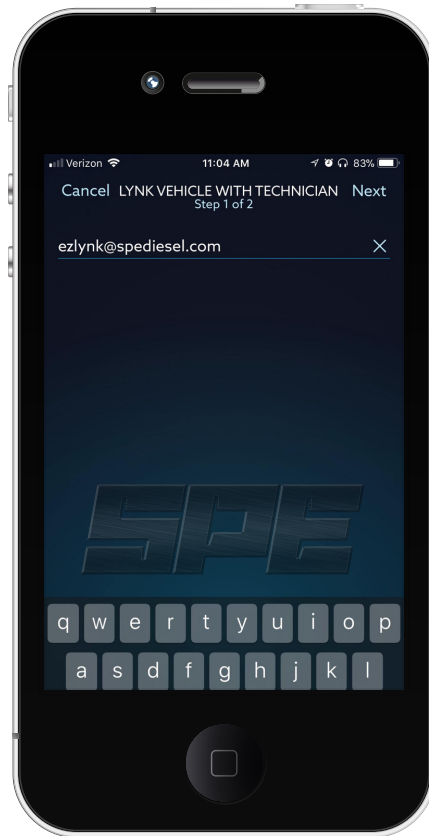

Once connected it will prompt and say "LET'S GO". Once you click on that you will see the main menu. From there you have access to your dashboard with gauges, vehicle info, diagnostics, chat, etc.

Step 6

Before you can program your vehicle you must share your vehicle with your technician (SPE). To start you will click on "My Vehicle" in your menu bar. Your vehicle info will populate. Select that. From there you will see "manage shares". Tap on the share button next to your vehicle info. Type in the following technician information & follow the on-screen prompts.

TECHNICIAN EMAIL- ezlynk@spediesel.com

Step 7

Within 2-4 hours SPE will upload the tuning directly to your account & you will gain access to cloud tunes and the auto-update feature.

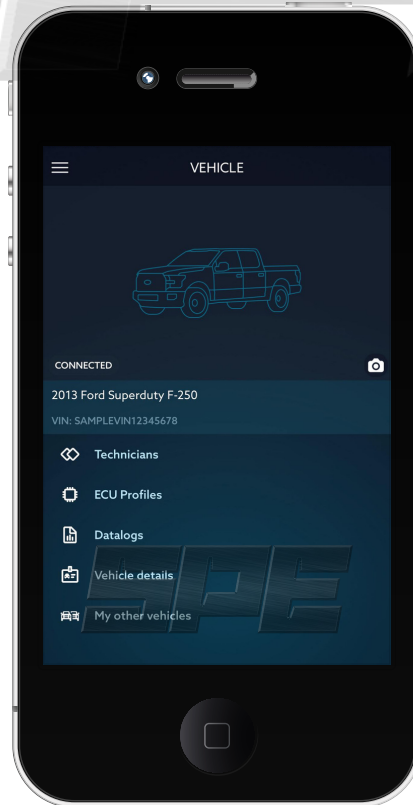

You will want to connect your device to a good WIFI source for the app to connect to the internet. This will require you to disconnect from your EZ Lynk WIFI connection. You can also do this through your cell phone provider if you choose.

****Note****

SPE prefers a good WIFI connection as it's a more stable & reliable connection over a cell phone connection.

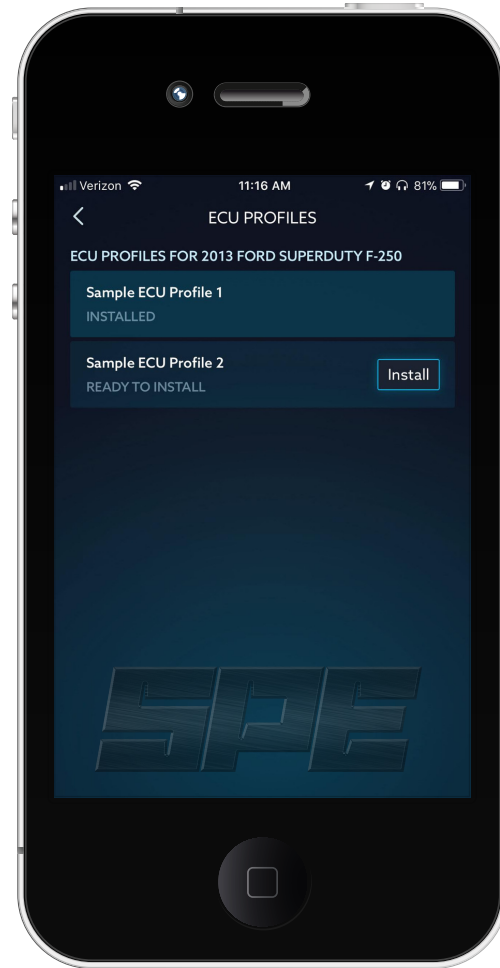

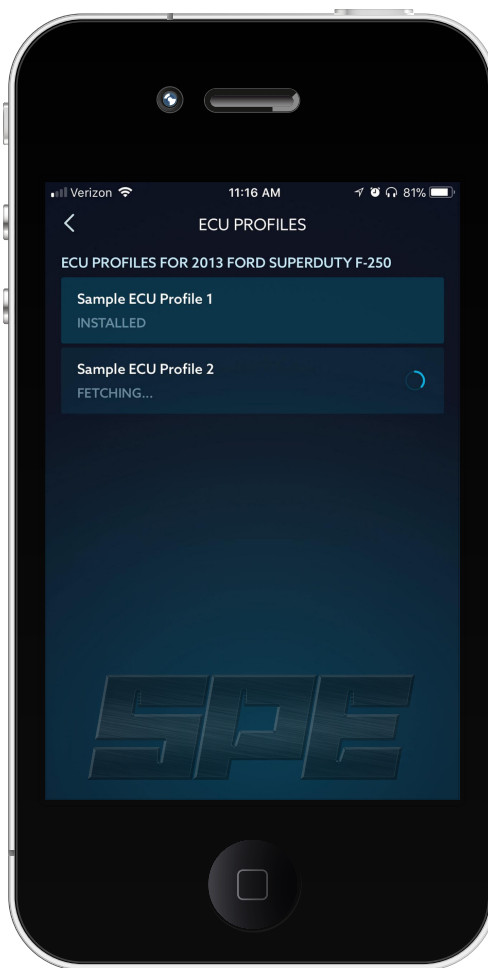

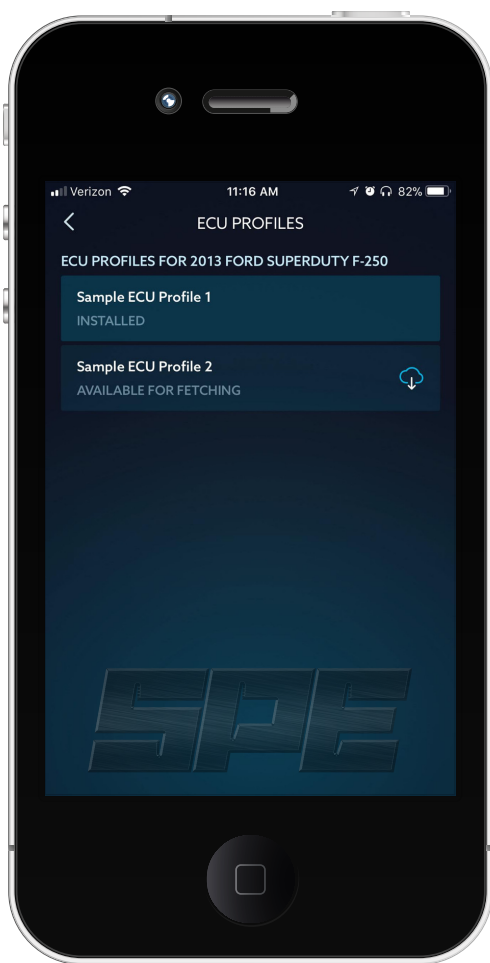

Step 8

Open the Auto Agent app. DO NOT allow the EZ Lynk to connect. Stay on your WiFi connection on your device. Tap "My Vehicle" on the menu and select your vehicle from the list.

Step 9

Select Manage ECU profiles. If SPE has updated your account the tunes available will populate. You will need to select each tune and tap "Fetch ECU Profile". This will save it to your device and allow you to load them while being connected to the EZ Lynk.

Step 10

You have now downloaded your tunes. You can reconnect the device to your EZ Lynk following steps 3-5. Next, select the program from the menu. Select the tune that you would like to install and follow the on-screen prompts to perform the download procedure.

NOTE- If it has issues connecting it is sometimes necessary to follow the on-screen prompts or log out and then back into the app to reconnect.
