STUDIO 50
OFFICE PARTITIONS
A DYNAMICALLY SIMPLE OFFICE SCREEN SOLUTION

A well designed product will always make life easier!

Studio50 is no exception. This new office partition system is easy to lift, easy to install and re-configure, plus it can be delivered in a matter of days.

Features:

Precision engineered auto-lock system

The **Studio**50 frame, designed in NZ by the Knight Group product development team, features an ingenious system that enables partitions to effortlessly slide together and automatically lock into position. By shedding many of the cumbersome components of conventional screen systems **Studio**50 shaves valuable minutes off each screen installation.

Tidy, easy-access cable tray

The hinged **Studio**50 cable tray is designed for quick and easy access to your power and data. Gently lever the door open - once your cables are in position simply click the door back into place.

Light weight, industrial strength panels

The innovative combination of an aluminium frame and extruded polymer-resin foam core means **Studio**50 is not only extremely rigid but is also conveniently light-weight! **Studio**50 panels are a one person lift - making them a dream to install and re-configure.

Adjustable shelves - any height, any width, anywhere!

Organising your work space has just got easier and more flexible. Place your shelf anywhere at any width with the **Studio**50 aluminium shelf-track. Secure the shelf at any height with the custom made shelf bracket. Once installed the shelf can be easily moved to a new position.
Integrated desking?
Here's the solution!

Studio50 is a great solution for screen-hung work surfaces
- whether it be straight-line, 90˚ or 120˚ configurations.

Studio50 screens featuring 120 degree screen mounted worksurface.

Features:

Quality components

Every component has been meticulously designed in New Zealand specifically for **Studio**50 office partitions - making them highly effective and easy to use. These cast aluminium **Studio**50 parts are built to last!

Sturdy work-surface bracket

The cast aluminium **Studio**50 desk bracket locks securely to the frame and can be placed at the height best suited to the user. Practically hidden from sight, the bracket is a tidy solution to a screen-hung work-surface.

100% Recyclable frame and core

The **Studio**50 aluminium frame and extruded polymer-resin foam core are 100% recyclable and reusable. Aluminium can be recycled indefinitely and is also the most cost-effective material to recycle.

Multiple colour options

Incorporating partitions into the overall interior design of your office is easy! Each **Studio**50 panel can be covered in a different fabric, and by adding a transom to your screen you are able to have two colours.

Well planned spaces make efficient offices

Studio50 allows you to specifically design your work areas to suit the function of the room - this makes your office run far more efficiently.

Studio50 screens featuring Electric Highrise desking and Cubit storage.

Features:

Glazing options

The versatile **Studio**50 frame offers plenty of options to use glass in your office partition. From partial to full glazing - the choice is yours!

Free-standing partitions

Create definition in an open plan environment with a **Studio**50 free-standing partition. The unobtrusive **Studio**50 foot is simple to install and keeps the partitions rock solid.

CAT6 Cable-ducts wherever you need

The generous **Studio**50 cable management cavity* is designed to accommodate Category 6 wiring and can be specified at any height above or below the desks at the time of manufacturing.

*Excludes CMS and data outlets.

Easily connect multiple frame heights

Because the **Studio**50 frame links and locks along the entire edge of the screen, you can connect any height together - without the need for any unsightly connectors!
KINGS LANDING

WINTERFELL

Systems sorted

Studio50 is designed to work as a seamless addition to Cubit System. With their crisp contemporary lines and matching frame colours these two modular systems work in perfect harmony.
Studio50 screens featuring Cubit System desking and Cubit Storage.
Features:

Multiple attachment options

Studio50's aluminium shelf-track allows for multiple attachments to be applied to the screen. *For example; adding two **Studio**50 shelf-tracks creates the platform for mounting a standard monitor arm - at any height, anywhere along the screen.*

Match your frame to your desking system

The auto-lock aluminium frame is finished in Silver, White or Black powder-coat to match your entire office.

Cable management

Cubit System has a scalloped infill panel for discreet cable access.

Return screens

Studio50's return screens increase individuals privacy by dividing and defining individual workspaces.

Personalised work environments

For a fully personalised office, **Studio**50 partitions can be upholstered with custom designs to the screen at time of manufacture. Keep staff inspired or create better brand awareness. It's easy with **Studio**50!

Studio50 screens featuring Anvil workstations and Cubit storage.
Features:

Pinnable surfaces

Studio50's extruded polymer-resin foam core is an ideal pinnable surface - work areas can be easily organised and personalised.

Adjustable foot

Studio50 stands on an adjustable levelling glide with 35mm travel allowing plenty of room to work on uneven floors.

Your choice of fabric

The pinnable face of a **Studio**50 screen can be finished in the fabric of your choice - making it easy to add colour to your office space. The Knight Group upholstery team recommends using either plain fabrics or large random patterns.
