### **1** Identification

- · Product identifier
- Trade name: Frankotex Fresh DF
- Application of the substance / the mixture
   Dry-cleaning
   Detergent
- Details of the supplier of the safety data sheet
  Manufacturer/Supplier: SEITZ GmbH Gutenbergstrasse 3
  65830 Kriftel / Germany Tel. + 49(0) 6192-9948-0
  Fax + 49(0) 6192-9948-99 msds@seitz24.com
- www.seitz24.com
  Information department:
- CHEM-TEL Inc. 1305 North Florida Ave Tampa Florida 33602
- · Emergency telephone number: 1-800-255-3924

## 2 Hazard(s) identification

- Classification of the substance or mixture
   GHS08 Health hazard
  - Asp. Tox. 1 H304 May be fatal if swallowed and enters airways.

Eye Dam. 1 H318 Causes serious eye damage.

GHS07

Skin Irrit. 2 H315 Causes skin irritation.

#### · Label elements

- · GHS label elements
- The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms

#### · Signal word Danger

• Hazard-determining components of labeling: dioctyl sodium sulfosuccinate alkanes, C10-13-isopoly(oxy-1,2-ethanediyl), .alpha.-hydro-.omega.-hydroxy-, mono-C12-14-alkylethers, phosphates isotridecanol, ethoxylated

### Trade name: Frankotex Fresh DF

## **3 Composition/information on ingredients**

#### · Chemical characterization: Mixtures

· CAS-No.	Components:	
	alkanes, C10-13-iso-	25 - 50%
	dioctyl sodium sulfosuccinate	< 15%
34590-94-8	dipropylene glycol monomethylether	< 10%
	poly(oxy-1,2-ethanediyl), .alphahydroomegahydroxy-, mono-C12-14- alkylethers, phosphates	< 10%
69011-36-5	isotridecanol, ethoxylated	< 10%

#### **4 First-aid measures**

· Description of first aid measures

· General information Immediately remove any clothing soiled by the product.

• After inhalation Supply fresh air; consult doctor in case of complaints.

(Contd. on page 3)

USA

Reviewed on 10/29/2014

### Trade name: Frankotex Fresh DF

(Contd. of page 2)

- After skin contact
   Immediately rinse with water.
   If skin irritation continues, consult a doctor.
- After eye contact
   Rinse opened eye for several minutes under running water. Then consult a doctor.
   After swallowing
- Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help.
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

## **5 Fire-fighting measures**

- · Extinguishing media
- · Suitable extinguishing agents
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents Water with full jet.
- · Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters
- · Protective equipment:

Do not inhale explosion gases or combustion gases.

Wear self-contained respiratory protective device.

Additional information
 Cool endangered receptacles with water spray.
 Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

## 6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures
- Wear protective equipment. Keep unprotected persons away.
- Ensure adequate ventilation
- Do not breathe gases/ vapours.
- Avoid contact with eyes and skin.
- Keep away from ignition sources
- Environmental precautions: Do not allow product to reach sewage system or any water course.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of the collected material according to regulations.
- **Reference to other sections** See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## 7 Handling and storage

- Precautions for safe handling Keep away from heat and direct sunlight.
- Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. Avoid contact with eyes and skin.

(Contd. of page 3) · Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. · Conditions for safe storage, including any incompatibilities · Storage · Requirements to be met by storerooms and receptacles: Store only in the original receptacle. · Information about storage in one common storage facility: Store away from foodstuffs. · Further information about storage conditions: Protect from heat and direct sunlight. Store in cool, dry conditions in well sealed receptacles. Store receptacle in a well ventilated area. Protect from frost. Time of storage: max. 24 month · Specific end use(s) Dry-cleaning

### 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

<ul> <li>Components with limit values that require monitoring at the workplace:</li> </ul>			
34590-94-8 dipropylene glycol monomethylether			
PEL (USA)	Long-term value: 600 mg/m³, 100 ppm Skin		
REL (USA)	Short-term value: 900 mg/m <sup>3</sup> , 150 ppm Long-term value: 600 mg/m <sup>3</sup> , 100 ppm		
	Skin		
TLV (USA)	Short-term value: 909 mg/m³, 150 ppm Long-term value: 606 mg/m³, 100 ppm Skin		
EL (Canada)	Short-term value: 150 ppm Long-term value: 100 ppm Skin		
EV (Canada)	Short-term value: 910 mg/m³, 150 ppm Long-term value: 605 mg/m³, 100 ppm		
<ul> <li>Additional information: The lists that were valid during the creation were used as basis.</li> </ul>			

- Exposure controls
- Personal protective equipment
- · General protective and hygienic measures

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Do not eat, drink, smoke or sniff while working.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

- Do not inhale gases / fumes / aerosols.
- Breathing equipment: Use suitable respiratory protective device in case of insufficient ventilation (exceeding the workplace limit values, formation of aerosols).

## · Protection of hands:

Protective gloves.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

(Contd. on page 5) USA

Printing date 10/29/2014

Reviewed on 10/29/2014

## Trade name: Frankotex Fresh DF

(Contd. of page 4)

Material of gloves
 Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### · Penetration time of glove material

- The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye protection: Tightly sealed goggles.
- Body protection: Protective work clothing.

9 Physical and chemical properties		
<ul> <li>Information on basic physical and chemical properties</li> <li>General Information</li> </ul>

#### · Toxicity

- · Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Additional ecological information:

#### · General notes:

Do not allow product to reach ground water, water course or sewage system.

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

#### · Results of PBT and vPvB assessment

- · PBT: Not applicable.
- · vPvB: Not applicable.
- Other adverse effects No further relevant information available.

### **13 Disposal considerations**

#### · Waste treatment methods

· Recommendation:

Contaminated adsorbent, soil, water must be disposed of in a permitted hazardous waste management facility. Recovered products may be reused, reprocessed or incinerated or must be treated in a permitted hazardous waste management facility. It is your duty to dispose of the chemical materials and/or their containers in accordance with the Clean Air Act, The Clean Water Act, RCRA, as well as applicable Federal, State, and local Regulations regarding disposal.
