

Multibrite

Completely built liquid detergent for white and colored fabrics

Multibrite is suitable for all cottons and mixed fabrics and has an excellent soil and stain-solubilizing action at temperatures between 85 °F and 140 °F. It is a slightly alkaline sole wash detergent with non-ionic surfactants, optical brightener and fragrance.

Multibrite does not contain phosphates or bleaches. It is gentle to colors and fibers and is environmentally friendly. Textile-caring additives and a fresh fragrance provide the treated fabrics with a pleasant handle and an appealing freshness.

Multibrite is anti-foaming and suited for use in all wash-extractors. All garments with a care label that permits washing can be treated with **Multibrite**.

Physico-chemical Data:

Consistency:	homogeneous liquid	
pH-value:	~ 10,3	(1 % solution)
Density:	~ 1.07 oz/fl.oz	(68 °F)

Pre-treatment:

In case of tenacious stains, **Multibrite** can be applied directly on the fabric by means of a brush. After a short active period, treat in the washing machine.

Recommended Dosage:

Indication: fl. oz per 10 lbs dry laundry, bath ratio: 1 : 4

Hardness Range ppm CaCO ₃	1-Bath Procedure	2-Bath Procedure	
		1 st Bath	2 nd Bath
0 - 125	0.25 – 2.00 fl.oz	0.25 – 2.00 fl.oz	0.25 – 1.00 fl.oz
125 - 250	0.50 – 2.50 fl.oz	0.25 – 2.50 fl.oz	0.25 – 1.25 fl.oz
over 250	Water to be softened		

The information provided herein is given on an advisory basis which does not imply any liability on our part. For further details **see our relevant safety data sheet prior to use !**

Application:

In case of slightly soiled textiles, **Multibrite** can be used also in single bath procedure.
As post-bleaching agent, we recommend the addition of **Blankotex**.
