How it works

Packed with highly sensitive movement sensors and with secure data backup, Time runs 24/7. While you're sleeping, meditating, or being active. When you're ready to see your results, it wirelessly syncs with the Bellabeat app that is available for iOS and Android. There is no need to charge it since the technology is powered by a replaceable battery, one that powers the watch mechanism and one that powers the tracking technology.

FASHIONABLE TIMEPIECE ENHANCED WITH TRACKING TECHNOLOGY

Time will blend into your everyday life as a luxury hybrid wellness watch, suitable for any occasion. While it has the appearance of a gorgeous timepiece, the technology inside of it connects to the Bellabeat app to provide you with insight into your well-being. It comes in two stylish editions, silver and rose gold. The Milanese straps are replaceable for a chance to easily refresh your look.

IT'S TIME FOR SELF-CARE

Taking the time to focus on yourself and your needs can make a huge impact on your overall well-being. Most women have a habit of taking care of others before they take care of themselves, sometimes at the cost of their own health. Self-care isn't selfish, it's necessary and Time will remind you of that.

STAY MOTIVATED AND INSPIRED WITH BELLABEAT APP

You are your only competition. Track your progress and be proud of your achievements. Share your progress with fun sharing messages that will inspire others to embrace a healthy lifestyle.

COMPATIBILITY

Time works with iPhone 4s and newer, iPad mini and newer, iPad 3rd gen. and newer models and Android 4.3 and newer with Bluetooth 4.0.
