

Installation Instructions for GERMAWAYUV HVAC COIL SCRUBBER

FOR OPTIMAL PERFORMANCE THIS UNIT SHOULD BE LOCATED AS CLOSE TO THE COILS INSIDE YOUR HVAC SYSTEM AS POSSIBLE.

CONTACT YOUR LOCAL QUALIFIED AND LICENSED HVAC SERVICE PROFESSIONAL FOR INSTALLATION.

INSTRUCTIONS

- Isolate power to the HVAC system.
- Remove cover and locate position of coils.
- Locate position to mount lamp bracket in between coils, (this may involve drilling hole large enough for bulb to pass through.)
- Mount lamp bracket using sheet metal screws provided.
- Re-attach panels and route wire and connector to outside of unit.
- Find location outside of HVAC unit to mount power supply.
- Hook UVC lamp connector to white connector on Power supply.
- Plug power supply into 110V service.
- Turn on system
