GermAwayUV Sr. UVC Surface Sterilizer Wand
Wide Coverage with Timer
SKU # 201054
Instruction Manual

Characteristics:
- Ultraviolet (UV-C) light eliminates bacteria, viruses, fungus, molds, etc on the surfaces of most household and personal items.
- Removes odors, bacteria, and dust mites which cause splenetic, pneumonia, asthma, and allergies.
- Keeping your rooms, closets, and household appliances in an antiseptic environment.
- Portable handheld design and easy to operate.
- Able to hang on the wall and control airborne germs.
- LED display screen.
- Open tube design that enhances the sterilizing strength.
- 3 countdown timer modes for auto –turn off in 5 minutes/30 minutes/ 60 continuous “serial” mode.
Specifications:
- Push button operation
- AC adapter/battery charger
- 4x AA batteries
- Easy to read digital display
- Low battery warning light
- Long life UV-C bulb rated for 15,000 hours of use
- Dimensions: 14” x 1.6”

FEATURES:
The GermAwayUV Sr. UV-C light sanitizing wand provides effective protection from germs, viruses, bacteria, dust mites, and mold throughout your home. Used regularly on surfaces throughout your home to disinfect, in addition to regular cleaning of bedding, floors, and other surfaces, this wand will keep your home germ safe without the risk of chemical contamination. The UVC wand features:
1. Naturally eliminates germs that are the common cause of colds, infections, asthma, and allergic reactions.
2. Sterilizes quickly and effectively without damaging delicate items.
3. The UV light automatically shuts off once the wand is turned over (bulb facing up) The wand will resume working when turned back in the working position
5. Hypoallergenic disinfection of kitchen surfaces and utensils, beds, sofas, children’s toys, and more.
6. Safe and easy to use-built-in timer, auto shut off, and silent operation.

Warning! Do not expose eyes or skin directly to UV-C light. Keep out of reach from children.

Guidelines for using the GermAwayUV Sr. Wand:
1. Bedding/Mattresses: Hold the wand approximately 1-2 inches from the surface and gradually move the wand over the entire surface. Allow the light to stay on each area for 5-10 seconds to ensure optimum exposure.
2. Personal hygiene items (brushes, toothbrushes, earrings, razors): Place items on the counter and expose them to the UV light for 10 seconds at 1-2 inches from the surface of each item.
3. Kitchen utensils: Place utensils on the counter away from water and expose them for 10 seconds at 2-3 inches from the surface of each item.
4. Counters and bathroom fixtures: Hold the wand 2-4 inches above the surface and allow UV light to expose the surface of each item.
5. Other uses: Computer keyboards, telephones, tablets, and baby toys.

**Operation:**

1. Plug into 110V grounded wall outlet.
2. Place the wand in a secure area to charge the lithium battery for 8/10 hours prior to first use. The red light will illuminate, showing the batteries are being charged. It will turn green once fully charged.
3. After 1st initial charge the battery can be fully charged in 2-3 hours.
4. Remove protective cover above uv bulb.
5. Press On&Off/Pause button for 3 seconds. The UV light will turn on as well as a time mode selected.
6. To change the selected time, hold down the menu select button for 3 seconds. After the desired time has been chosen click the On&Off/Pause button.
7. Hold the UV Sterilizer between ½” to 2” from the surface you want to scan. For highly contaminated area, hold the wand closer to the object and repeat scans 2-3 times.
8. Built-in timer will shut the UVC light off after the cycle is complete. If you wish to discontinue the cycle at any time, simply press the button On&Off/Pause button and the wand will shut itself down.
9. Place protective cover back over the UV Bulb to prevent any damage.

Note: A safety switch will automatically turn off the wand if the light source is turned upward (it will go back on when the light source is once again lowered).

**Sterilizing Efficiency Testing (SGS laboratory):**
