2. Hazards identification

MOST IMPORTANT HAZARDS

Adverse human health effects : Not to be used directly in the eye

: May cause slight irritation to skin
during prolonged use

Physical and chemical hazards : none
- Fire or explosion

Specific hazards : not classified as a “hazardous
preparation”

3. Composition / information on ingredients

Preparation
Chemical nature : blend consists of food grade materials

Components presenting hazards : none

4. First – aid measures

Inhalation	: not applicable
Skin contact	: wash with warm water may stain palms of hands after prolonged use, in which case use proprietary cleaner.
Ingestion	: no harmful effect
Further information	: Product may stain some fabrics. Wash with warm water detergent

5. Fire – fighting measures : Product does not present a fire hazard

6. Accidental release measures

Personal precautions	: N/A
Environmental precautions	: This product does not present any particular risk to the environment.
Methods for cleaning up	: Clean up with plenty of warm water
Disposal	: Flush unwanted product into drain with plenty of warm water

7. Handling and storage

HANDLING

Technical measures	: Does not require any specific or particular measures.
Safe handling advice	: Store containers in an upright position

STORAGE

Technical measures	: N/A
Storage conditions	: Stable under normal storage conditions store at an ambient temperature

3/6

Packaging : Plastic drums and bottles

8. Exposure controls/ personal protection

Control parameters
Occupational exposure limits : No specific limits

Personal protective equipment

- Hand protection : No required

- Eye protection : Not required

- Skin and body protection : Not required

Collective emergency equipment : Eye fountain

9. Physical and chemical properties

Appearance

- Physical state : liquid or gel
- Form : viscous
- Colour : blood tones
- Odour : peppermint
- pH :

Specific temperatures : N/A

Solubility : in water

10. Stability and reactivity

Hazardous reactions : none

11. Toxicological information

Acute toxicity : Not classified as harmful by inhalation
Not classified as harmful by contact with skin
Not classified as harmful if swallowed

Local effects : Not classified as irritating to skin and eyes

Sensitisation : Not classified as sensitising by skin contact

4/6

12. Ecological information

MOBILITY

Expected behaviour of the product : Ultimate destination of the product:
Soil and Sediment

BIODEGRADABILITY

- Ultimate aerobic biodegradability : Fully biodegradable

Further information : Not classified as Dangerous for the
Environment, according to EC criteria.
(by calculating according to the conventional
method)

13. Disposal considerations

The users attention is drawn to the possible existence of additional provisions which complete these regulations. Refer to all applicable national, international and local regulations or provisions.

Other information

Product may contain : E104 E122 E129 E150c E171

This safety data sheet should be used in conjunction with technical sheets. It does not replace them. The information given is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks of using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his or her activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfil his or her obligations regarding the use of hazardous products. This information is not exhaustive. This does not exonerate the user from ensuring that legal obligations, other than those mentioned, relating to the use and storage of the product, do not exist. This is solely his or her responsibility.
