

CERTIFICATE OF QUALITY

EZFlow[®] Membrane Disc Filter

Part Number:

Lot#:

Membrane Material:

Membrane Diameter:

Flow Rate (13psi):

The membrane has been tested and is confirmed to have a flow rate of *Flow rate specification per material*

Good Manufacturing Practice:

This product was manufactured in a Class 7 clean room facility that is certified to ISO 9001 Device Manufacturing.

Component Material Toxicity:

All component materials have been tested and meet the requirements for United States Pharmacopoeia (USP) class VI Biological Test for Plastics, 6th edition. The plastics meet the requirements of the United States Food and Drug Administration (FDA) for food and beverage contact in 21 CFR 177.1640.

Manufacturing Quality Standards:

This product was manufactured in a facility whose Quality Management System is approved by an accredited registering body to the appropriate ISO 9001, ISO 14001, and OHSMS18000.

Membrane Bubble Point:

The membrane has been tested and is confirmed to be a *Pore Size* with *Bubble Point per material*

Wettability:

The membrane has been tested and is confirmed to be a *Hydrophilic/Hydrophobic material*

Thickness:

The membrane has been tested and is confirmed to have a thickness of *Thickness specification per material*
