

Mark2 Leather Armrest Assembly and Installation

Contents

- 1 Cupholder Console with installed Mark2 Armrest
- 1 Sheet metal screw for the floor of the storage area

**Instructions for removing the console option in your Z3 can be found at:
<https://www.leatherz.com/pages/z3-console-removal-instructions>**

Remove the existing console option and any installed hardware.

Installation of Cupholder Console into your Car

- Install the front of the cupholder console first. Make sure the male tab in the cupholder console mates with the female slot in the center console of your car.
- After the tab is engaged, lower rear of console and re-attach sheet metal screw on the floor of the storage area.

- Install the carpet on the floor of the storage area.

Leather Care Instructions for Mark2 Armrest

The most important factor that affects the life of leather is cleanliness. You should try to keep your LeatherZ Armrest (and all of your factory leather) as clean as possible. At least once per month, you should wipe the leather with a damp cloth and pat it dry with a soft cotton diaper. Tiny dirt particles rubbed into the surface of the leather will make it shiny and eventually thin the leather and cause cracks. Keeping the leather surface clean will prevent this. Every 12 months, you should treat the leather with Spinneybeck Leather Cleaner and

Conditioner. The Spinneybeck leather maintenance products were specifically designed for the leather I use. You can buy it directly from Spinneybeck.com or by calling (800) 482-7777.

Customer Satisfaction

If you like my work, please drop me a line and say so. Tell other Z3 and M owners. If you are not happy with my work, let me know. Let me make it right for you. -- Andy Maddux
