*How to wear a Sari Wrap Skirt:*  
**Everyday Edition**

More Inside!

## Western Vibes

For an effortlessly western vibe we love pairing our paisleys back to a vintage tee and leather flats! Throw your hair up in a top bun with a sari ribbon scrunchie and pair with a bag that brings out the undertones of the skirt.

## Indigo Day Dreams

Use the uniqueness of the sari wrap skirt to style the outfit! We were so inspired with this exploded bandanna print we had to pair it back with a knotted denim top and white sneakers. Who doesn't love wearing skirts and sneakers?! Tuck the front of the skirt for an added styling tip!

## *Fri-Yay!*

The perfect outfit is one that takes you from sunrise to sunset! This outfit definitely checks all the boxes. We have a beautiful warm floral sari wrap skirt paired with a black flutter sleeve top that adds a feminine touch. Pair with your favorite black mules for comfort and style. We love adding in a pop of color in our accessories that bring out colors of the skirt!

## Weekend Warrior

We love that some of the sari wrap skirts have a bit of shine. Perfect for a night out with friends or on a date! Pair with a lettuce edge top and sari ribbon clutch for added texture and a feminine feel. Compliment the shine by added some metallic pumps!

## Pattern Play

These skirts are made to stand out. Don't be afraid to mix patterns and textures to create even more of a statement! We love using our sari scarfs as a chunky headband. They easily elevate any outfit!
