

Extra 'pattern' fun with StickTogether!

1
 Design
 a pattern

2
 Sticker
 the pattern

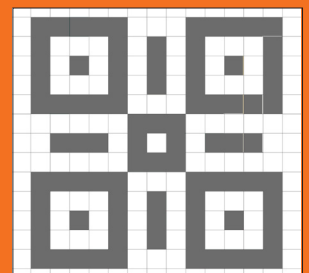

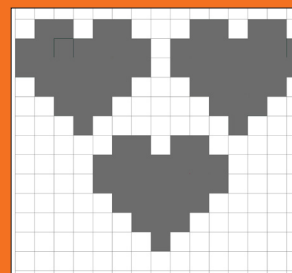

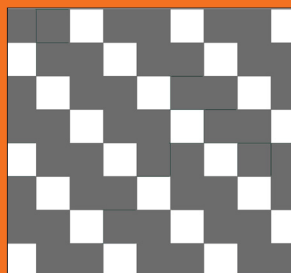

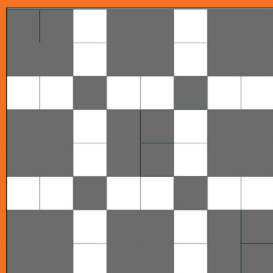

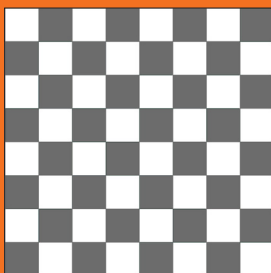

3
 Then sticker the
 rest to reveal
 the image!

Use the worksheet on the next page to design a pattern (or more). Then use that pattern as a guide to identify which lettered squares on the StickTogether poster to sticker.

Make sure to share your 'pattern poster' on social and tag us @byStickTogether.

Share the completed image too! #WeStickTogether

Here are some pattern examples. We want to see what you design!

Use a pencil, pen or marker to fill in the squares to create a few patterns.
Then use this as a guide as you sticker your StickTogether poster.
Remember to check the color key before adding stickers to the coded poster!
