

A Distance-Learning/ Home-Schooling Tool For Parents

As you juggle your child's education this fall with classes or alternate days online, or by home-schooling, there are a number of ways StickTogether can supplement, augment and complement their learning experience.

StickTogether is DEVICE-FREE TIME TO CONSOLIDATE LEARNING

All students benefit from brain breaks to think about what they have learned, to make connections, and for all the knowledge to sink in. StickTogether is the perfect activity for this productive learning-consolidation time. In addition, as many images relate to school curricula, the finished StickTogether represents not just time well spent but also a way to jump-start their imagination.

StickTogether is A GREAT REWARD SYSTEM

For those students who have trouble getting down to business or finishing a task, try parsing out stickers as a reward for a job completed. A few stickers for every accomplishment adds up to a vibrant image, and a memory that lasts a lifetime

StickTogether RELIEVES STRESS

Many students are experiencing stress as a result of the many disruptions to their routine and being separated from their friends. StickTogether is a calming, soothing and relaxing activity.

COUNTDOWN WITH StickTogether

With schedules and social lives disrupted, special dates, events and milestones can get lost. Use StickTogether to 'count down' to an important date or milestone. Divide the number of stickers by the number of days until the event. Add that number of stickers per day and Let's ALL Celebrate! when the final sticker is placed.

A Distance-Learning Tool For Teachers

As you dive back into this disorienting new school year of distance learning, StickTogether can help bring everyone together in spirit.

StickTogether as a CUMULATIVE REWARD SYSTEM

Place the poster where it can be seen as you are teaching online. Add stickers for assignments completed, books read, grades achieved, attendance, or whatever you choose to track. As the image fills in, students can see their collective progress and contributions.

StickTogether is MATH / PIXELS / IMAGE TO SUPPORT CURRICULUM

Use StickTogether to share basic math and pixel concepts. Or choose an image that ties into the curriculum to add an extra dimension to the class. Make a game out of having students guess the image.

StickTogether RELIEVES STRESS

Remote teaching is stressful, and in addition you may also be caring for others at home. It will continue to be an overwhelming situation. Take some time for yourself to de-stress and clear your mind. StickTogether is one way to reduce stress, but there are many others.
