

Collagen Regenerate

Collagen is the most abundant protein in your body. It is the major component of connective tissues that make up several body parts, including tendons, ligaments, skin and muscles. Strong tendons and ligaments are crucial for movement, control, stability and mobility and are important for physical performance. BSc Collagen Regenerate contains TENDOFORTE®, a researched specific Bioactive Collagen Peptide designed for ligaments and tendons.

Injuries today account for more than 70% of time away from play, with personal and financial consequences to the athlete. Every sport requires a degree of strength, power and speed, and overuse may make tendons and ligaments more injury prone. TENDOFORTE® provides nutritional support for strong tendons and ligaments. Strong tendons and ligaments contribute to the foundation of high physical performance and fast return-to-training in athletes.

Vitamin C has been added because collagen and Vitamin C work together. Vitamin C is necessary for normal blood vessel structure and function and contributes to normal collagen formation. The body cannot produce vitamin C naturally and being water soluble, the body needs Vitamin C daily.

BSc Collagen Regenerate is easy and convenient to use. Plus its gluten free and contains no added dairy, sugar, artificial colours, flavours or sweeteners. Try it today.

ACTIVE INGREDIENTS

TENDOFORTE® Hydrolysed Collagen Peptides

– a researched specific Bioactive Collagen Peptide designed for ligaments and tendons. It provides nutritional support for strong tendons and ligaments. Strong tendons and ligaments contribute to the foundation of high physical performance and fast return-to-training in athletes.

Vitamin C – necessary for normal blood vessel structure and function and contributes to normal collagen formation. The body cannot produce vitamin C naturally and being water soluble, the body needs Vitamin C daily.

KEY BENEFITS

- TENDOFORTE® Collagen Protein
- Specific bioactive collagen peptides
- Nutritional support for ligaments and tendons
- Non GMO
- Gluten free
- No added dairy
- No added sugar
- No artificial colours, flavours or sweetener
- Connective tissue support

NUTRITION INFORMATION

Serving per package: 30

Serving size: 5.1g

	Avg Qty Per Serve 5.1g	Avg Qty Per 100g
Energy	79 kJ	1550 kJ
Providing Calories	19 cal	371 cal
Protein (dry basis)	5.0 g	98.5 g
-Gluten	nil detected	nil detected
Fat, Total	less than 1.0 g	less than 1.0 g
-Saturated	less than 0.1 g	less than 0.1 g
Carbohydrates	less than 1.0 g	less than 1.0 g
- Sugars	less than 0.1 g	less than 0.1 g
Sodium	less than 5.0 mg	49 mg
Vitamin C	50 mg	(125% RDI) 980 mg
Hydrolysed Collagen		
- TENDOFORTE®	5.0 g	98.0 g

*RDI - Recommended Dietary Intake

Ingredients: TENDOFORTE® Hydrolysed Collagen Peptides, Vitamins (Vitamin C).
