Look and feel great from the inside out! Greentea TX100 is a unique blend of green tea extract, gut friendly probiotics and powerful antioxidants designed to support your good health and vitality.

Scientifically formulated to help stimulate healthy thermogenesis, aid detoxification, boost metabolism, support immunity and maintain a healthy digestive system. Combine it with a healthy, balanced diet and regular exercise to be the best version of you!

With all the health benefits of a supercharged dose of green tea, plus immune boosting probiotics and antioxidants, let Greentea TX100 energise and revitalise you. There's only 7 calories per sachet, no added sugar, no artificial colours, flavours or sweeteners, and it's available in lots of amazing flavours. A great inclusion in any weight management, training or health regime, it's the perfect pick me up to help you look and feel your best!

## Available Flavours

Watermelon

Super Berry

Lemon Lime

## ACTIVE INGREDIENTS

**Green tea** – a natural, potent source of antioxidants. Regular consumption of green tea is linked to lower body weights and lower levels of abdominal fat. Green tea has also been shown to stimulate thermogenesis, enhance fat burning, increase the body's energy expenditure and boost metabolism.

**Probiotics** – powerful microorganisms that help to keep the digestive tract healthy. There is a strong relationship between our gut health and the absorption of essential nutrients from the food we eat. A single serve of Body Science Greentea TX100 contains more than 6 billion good bacteria, to help maintain healthy digestive function and support immunity.

**Vitamin C** – a powerful antioxidant that can aid detoxification.
