

ZMB6+™

BSc's new ZMB6+ formula is a combination of zinc oxide, magnesium oxide and vitamin B6, plus BioPerine to enhance absorption. It's backed by clinical research to be an ideal supplement to support muscle strength, performance, stamina, endurance, protein synthesis, muscle recovery and muscle growth, as well as maintain immune system health and metabolic rate.

Being deficient in zinc and magnesium will negatively impact training results. Zinc and magnesium are essential minerals involved in numerous processes in the body. Together they offer a wide range of physical and performance benefits.

Give your body the nutritional support it needs to stay healthy and strong, so you can maintain your training regime and get the results you're striving for.

ACTIVE INGREDIENTS

Zinc – an essential mineral with anti-oxidant properties that stimulates the activity of many enzymes in the body. Supports muscle health and strength, and maintains testosterone levels. Involved in the maintenance of immune system health. Maintains thyroid hormone levels and supports your metabolic rate.

Magnesium – an essential mineral involved in numerous reactions in the body. Critical for protein synthesis, the molecular mechanism that leads to muscle recovery and growth. Offers a wide range of physical and performance benefits including immune system health to keep you healthy and maintaining your training regime. Maintains thyroid hormone levels and supports your metabolic rate.

Vitamin B6 – supports immune system health.

BioPerine – enhances absorption.

KEY BENEFITS

- Muscle strength
- Muscle performance
- Aids protein synthesis needed for muscle recovery and growth
- Endurance and stamina
- Muscle function and health
- Supports immune system health
- Supports metabolic rate
- Supports testosterone level

EACH TABLET CONTAINS

	Per tablet:	Per daily dose:
Pyridoxine Hydrochloride	30.44 mg	60.88 mg
Equiv. Pyridoxine	25 mg	50 mg
Zinc oxide	15.56 mg	31.12 mg
Equiv. Zinc	12.5 mg	25 mg
Magnesium oxide	354.89 mg	709.78 mg
Equiv. Magnesium	214 mg	428 mg
Piper nigrum (BIOPERINE Black Pepper) fruit extract equivalent to dry	102.5 mg	205 mg
