AL-FK 30L

AQUALOOP growth bodies 30 liters

Instruction sheet

WATER IS OUR ELEMENT

www.intewa.de

1. Note

Updated technical data, scope of application and basic dimensioning principles are available at:

<http://www.intewa.de/1/wasser/wasseraufbereitung/>

General background information for water treatment and grey water utilization can be found at:

http://wiki.intewa.net/index.php/Wasseraufbereitung_und_Grauwassernutzung/en

2. Scope of delivery

- Bundle of 30 l growth bodies

3. Maintenance

The friendly bacteria deposits on the growth media, allowing the best possible biological cleaning. This means that with time, you will find a slimy build-up on the surface.

With the passage of time, the cleaning of the growth media will become necessary when the media become completely choked with dead biomass. In this case, the growth media is simply washed clean with water.

4. Warranty / Contact

The warranty provisions are included in our sales conditions, and can be viewed at:

<http://www.intewa.de/1/cs/dialog/rechtliches/verkaufsbedingungen>

For any queries, orders for spare parts or service enquiries, please get in touch with your local dealer or visit the service domain at the INTEWA website of your country.

Always keep your purchase invoice handy.
