

**NutraMilk**<sup>®</sup>

## Nut milk? No problem.

The NutraMilk nut processor from Brewista is a patented, revolutionary product, designed to make delicious, healthy, nut milks and butters from almost any nut available. The NutraMilk makes the process of creating alternative milks and butters incredibly fast, cost-effective, and hassle-free!

Using the traditional method, making your own nut milk can take you hours (or even days!), but with the NutraMilk, you can have delicious and smooth nut milk in 15 minutes or less.

### Features:

- LCD Display
- Safety mechanism
- Water level indicator
- Photo-etched stainless steel filter
- Low decibel (65 db.)
