

HOW IT WORKS

1. The Niche Zero Grinder's body is comprised of sleek aluminium casting and finished off with solid hardwood trim, giving you a look of timeless quality.
2. The Niche Zero Grinder is driven by a powerful DC motor and gearbox, ensuring optimum burr speeds and quiet operation.
3. The Niche Zero Grinder's professional 63mm conical burrs are infinitely adjustable, offering you a range of grind sizes.
4. The straight grind path goes directly into your stainless steel grind cup. It is perfect for weighing your coffee beans and easily transferring your grind to a portafilter
