

FIAT LOCKS (2009-PRESENT – HIGH SECURITY KEYS)

General information as follows:

- 1 For older model Fiat cars please see the listing in the 2008 historical ASP catalog. Those items have limited availability, please inquire based on specific requirements.
2. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
3. For Fiat Ducato van 2007-19 see RAM Promaster van (rarely found under the Fiat Ducato name in the USA and Canada).

IGNITION LOCKS

Models	Years	Key	Part description	Part no.	Notes
500, 500L, 500X	2009-19	SIP22	Coded cylinder	C-17-033	Use tumbler series P-17-191/198

DOOR LOCKS

Model	Years	Key	Part description	Part no.	Notes
500	2009-19	SIP22	Coded plug	D-17-081	This cylinder includes a mini-pack of wafers and a replacement face cap to use to rekey. The face cap over the face of the plug must be removed to expose a slide out retainer to remove in order to release the tumblers from the chambers. Change tumblers as necessary and replace the face cap.
500L	2012-19	SIP22	Coded plug	D-17-084	This cylinder includes a mini-pack of wafers and a replacement face cap to use to rekey. The face cap over the face of the plug must be removed to expose a slide out retainer to remove in order to release the tumblers from the chambers. Change tumblers as necessary and replace the face cap.
500X	2014-19	SIP22			This cylinder is disassembled for rekeying the same way as

FIAT LOCKS (2009-PRESENT – HIGH SECURITY KEYS)

TUMBLERS AND KEYING KITS

All of the door lock plugs listed above include tumblers for rekeying and a new face cap to replace the cap over the plug which must be removed in order to remove the retainer which holds the tumblers in place. Extra tumblers are available as described below:

Application	Tumbler	Tumbler	Tumbler	Tumbler	Notes
All except ignition locks	Depth A P-17-181	Depth B P-17-182	Depth C P-17-183	Depth D P-17-184	
	Depth 1 P-17-185	Depth 2 P-17-186	Depth 3 P-17-187	Depth 4 P-17-188	
Ignition locks	Depth 1 P-17-191	Depth 2 P-17-192	Depth 3 P-17-193	Depth 4 P-17-194	
	Depth A P-17-195	Depth B P-17-196	Depth C P-17-197	Depth D P-17-198	

KEYING KITS CONTAINING ALL TUMBLERS LISTED ABOVE ARE AVAILABLE AS FOLLOWS:

A-17-117 – full kit containing 25 each of all 16 different tumblers used in these locks

MP-17-180 - mini-pack containing 5 each of P-17-181/188 for all locks except ignition plus an extra face cap

MP-17-190 - mini-pack containing 5 each of P-17-191/198 for ignition locks

All tumblers are also available in refill packs of 25 pieces per number, order by the part number listed above (for example, ordering 1 P-17-181 will be a pack of 25 tumblers of that part number).

Explanation of A,B,C,D and 1,2,3,4 depth references

These locks have 4 depths but 8 different tumbler variations of each type. The difference is the location of the depth ridge in relation to the pilot extension which fits over the spring - same side or opposite side

For series P-17-181/188:

A,B,C,D are SAME SIDE

1,2,3,4 are OPPOSITE SIDE

For series P-17-191/198

1,2,3,4 are SAME SIDE

A,B,C,D are OPPOSITE SIDE
