LI-FT®

The Li-FT® Pigment Removal Course Has Been Translated & Is Now Available In Spanish!

We've received countless requests for Li-FT® to be translated into Spanish. You asked, we listened!

To keep more people safe and to extend the amazing power of Li-FT® to the Spanish speaking community, we've translated the course into Spanish!

We understand how the PMU industry has exploded. On one hand, that's great! On the other hand, with that comes a lot of bad work. And with a lot of bad work comes the need for highly skilled, highly trained technicians to remove it!

If you're implanting pigment, it's important to also be able to remove the work if need be, and/or be able to recommend someone that is trained in removal.

We're offering the course 1/2 OFF for those of you currently enrolled in the English version and who'd like to take the Spanish version. If you'd like to take advantage of this offer, please email support@girlzinktraining.com with the email associated with your account and we'll send you the link to complete the purchase.

Stay safe and Happy Tattooing!!
