Can you tell us a little about yourself Christina?

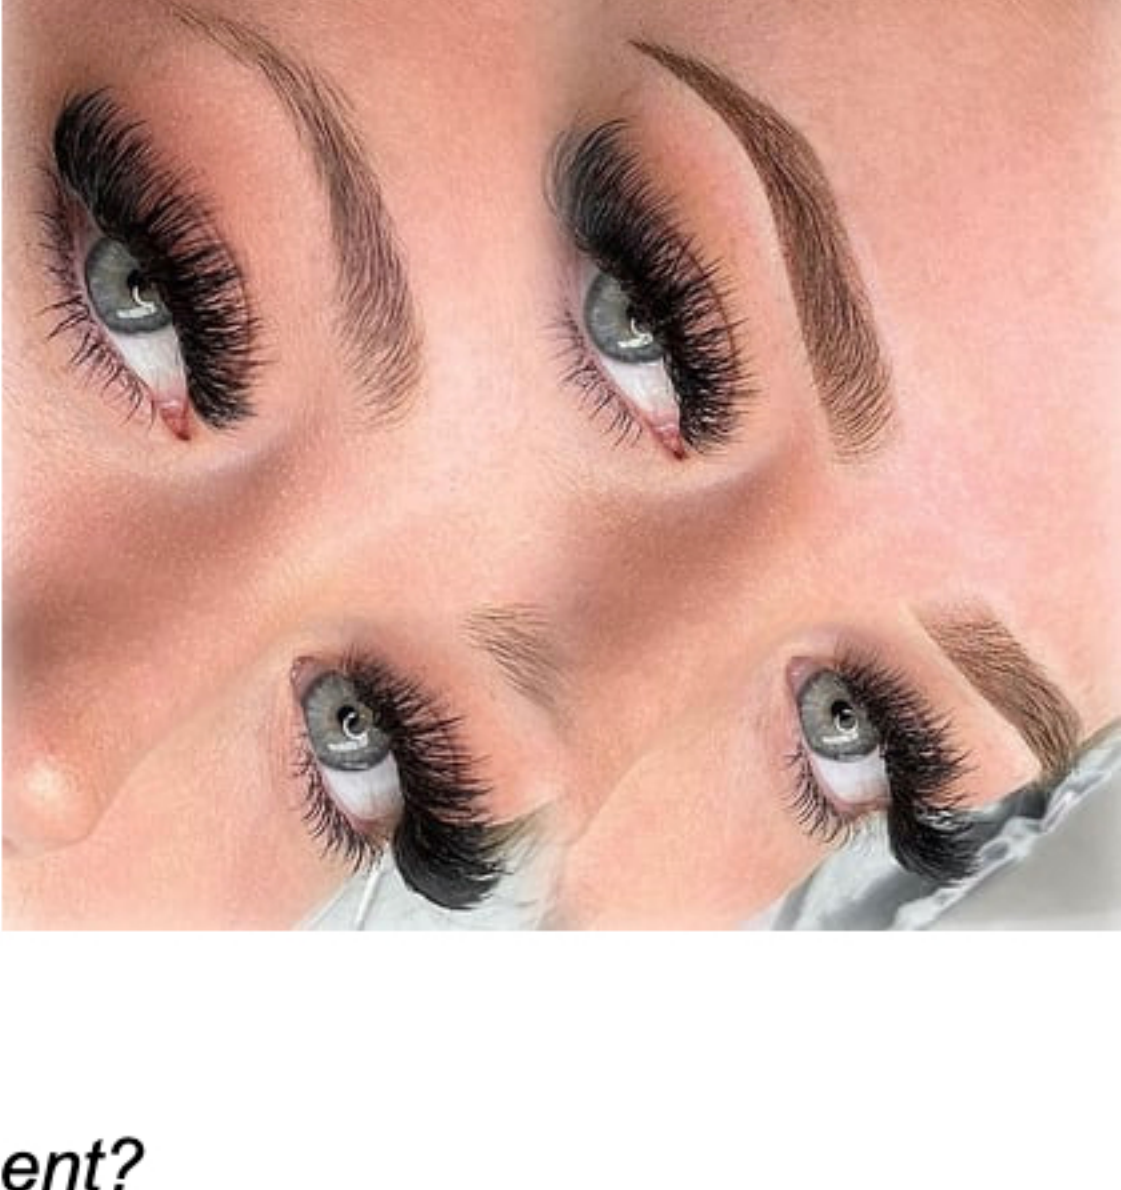

I'm Christina, and I'm very passionate about making a difference in people's lives and creating beauty that lasts. I've spent over 6 years perfecting my skills as a permanent makeup artist and trainer in Seattle, WA and Bay Area, CA.

Teaching others is where my heart truly sings. For the past three years, I've had the joy of guiding aspiring artists on their journey into the world of permanent makeup. It's incredibly fulfilling to share my knowledge and help others explore their creativity in this transformative industry.

What sets me apart is my attention to detail, artistic vision, and commitment to making my clients feel confident and beautiful. I believe that each procedure should be a personalized experience, carefully tailored to enhance natural features and boost self-confidence.

Outside of my work, I'm a lifelong learner who stays updated on the latest trends and techniques in the beauty world. This dedication to continuous growth ensures that I always deliver exceptional results that exceed expectations.

Do you have a favorite procedure?

My expertise are in ombre powder brows, machine hair strokes, eyeliner, lip blush/neutralization, and effective non-laser tattoo removal techniques to achieve the most natural results.

Do you have any encouraging words, tips or tricks for the artists that read this?

Build a strong mindset and learn to market yourself. Ask for feedback from your mentor as well as clients to improve quicker. Don't compare your journey with others.

PMU In the Know with Darlene and Mytia

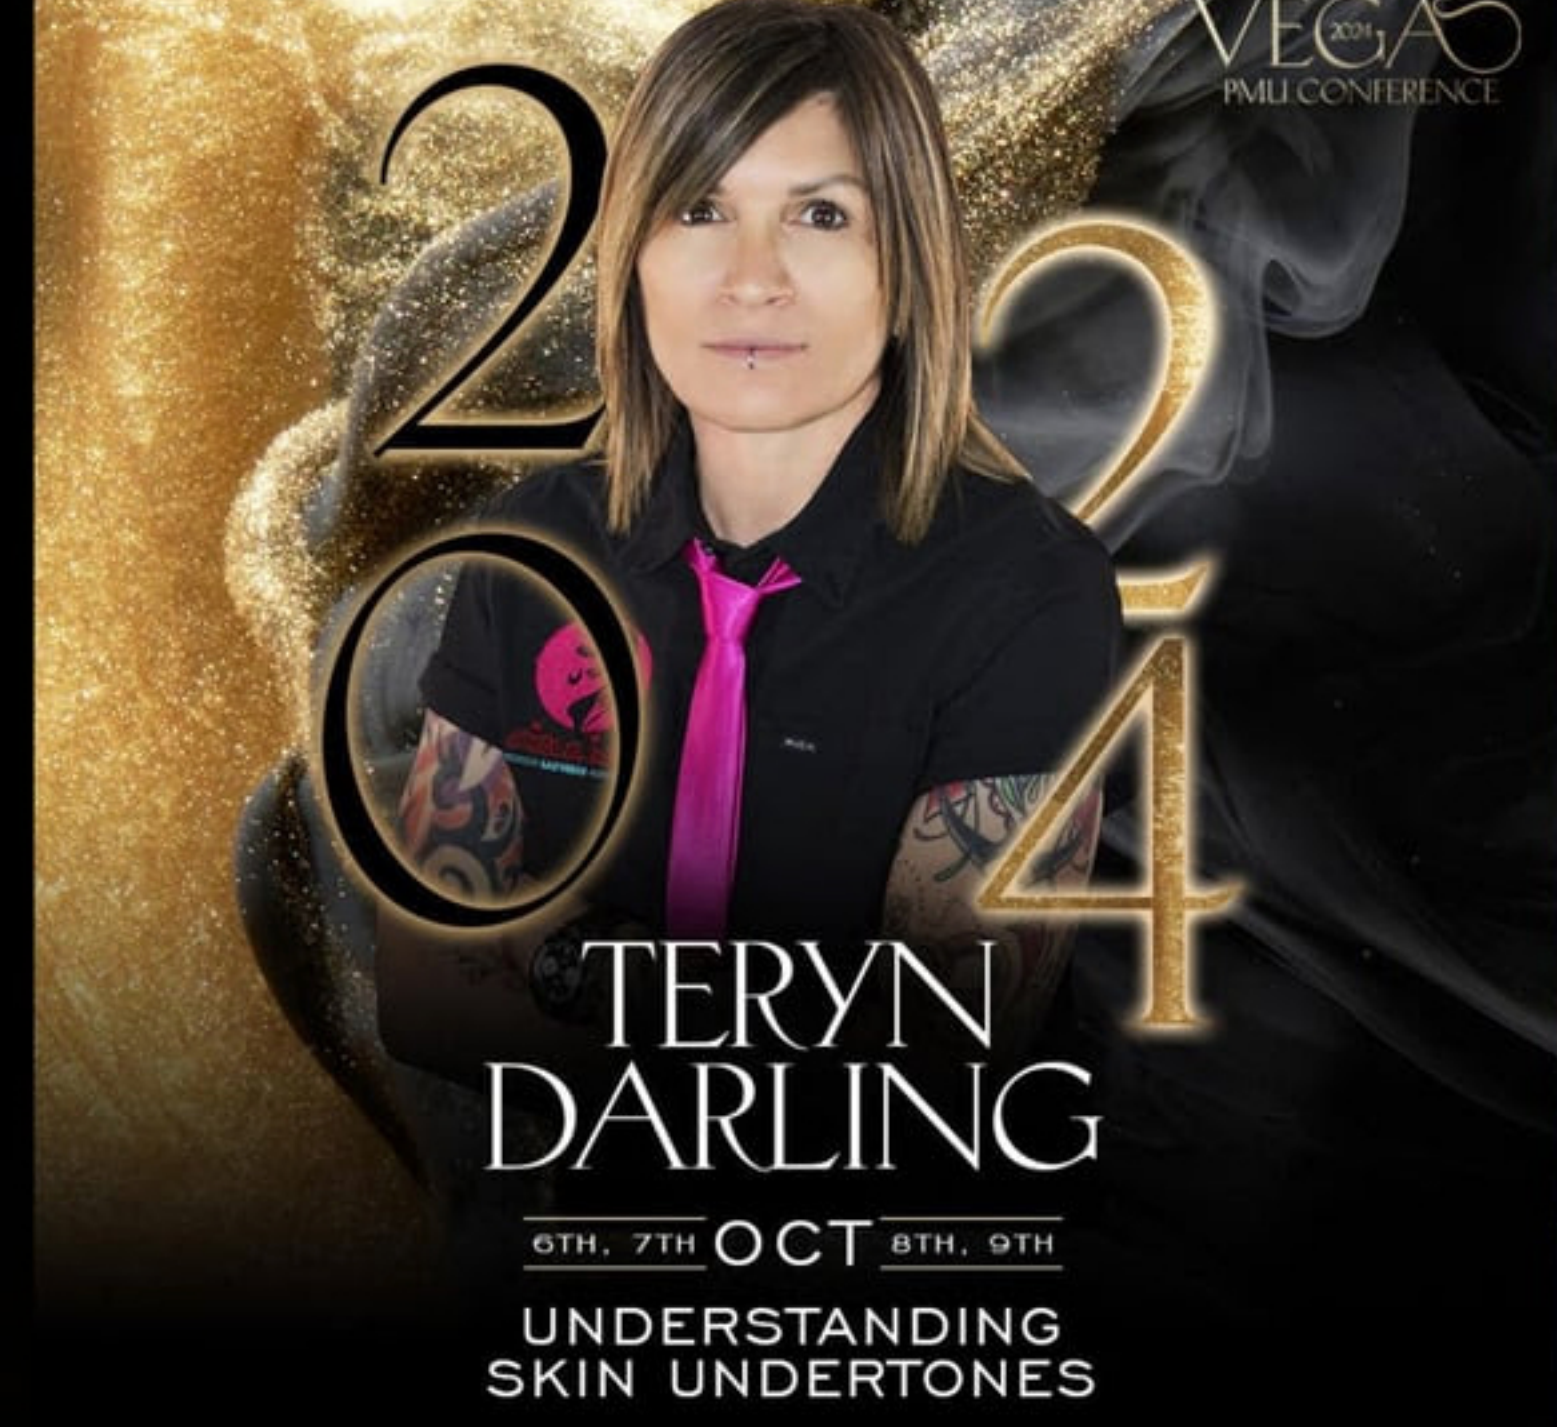

Darlene, Li Pigments president and founder, established the company over 30 years ago. Her daughter, Mytia, serves as vice president and senior chemist. With their extensive expertise in pigments and PMU, they're excited to share valuable insights! Look out for condensed tips in every Gazette, with detailed blogs for further reading.

We've seen posts and received emails about the yellow "staining" when using certain Li Pigments, so we've gone ahead and answered the why and given you some tips to remove the yellow stain so you can get the dreamy post-procedure photos you're after!

A few of the Li Pigments colors contain a particular yellow; **Classic Brown** and **Dark Toffee** are shades that has one of the yellow pigments that causes a yellow residue (staining) on the skin.

The bottle sometimes shows the yellow hue as well, even with shaking. However, the yellow residue will remain as a mixture and once implanted will dissipate. This is normal after the color settles in, usually within 1-3 days and does not heal yellow at all. This is something that is normal...
