PROTECTIVE
EQUIPMENT

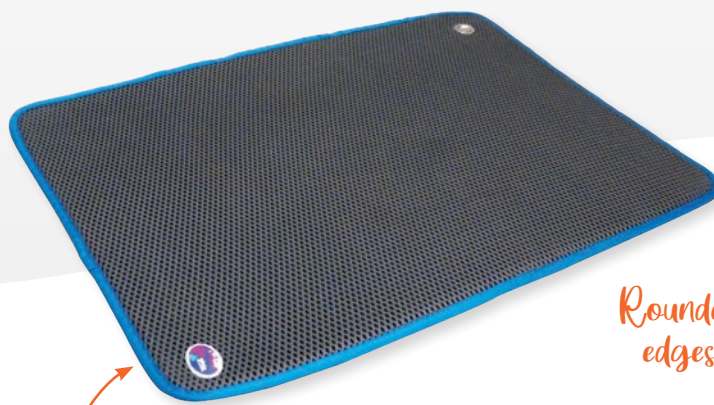

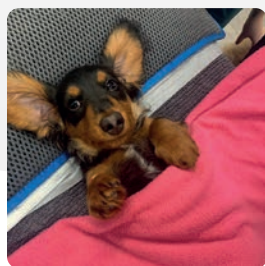

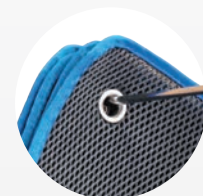

COSYPAD® NEW GENERATION

Versatile medical grade anti-microbial mat

- Keeps patients clean, comfortable, and dry
- Can be used before, during and after surgery
- Non-absorbent – liquids pass through the anti-microbial mesh
- Reduces hypothermia unlike towels and bare stainless steel
- Reduces pressure on muscles/joints to prevent bedsores
- Woven with one, continuous thread of polypropylene
- Rinse down or machine wash, drip dry, and repeat

Continuous sewing

Rounded edges

Code	Dimensions	Weight
327200B	13 x 20 in	200 g
327201B	15 x 28 in	382 g
327203B	22 x 28 in	505 g
327205B	24 x 45 in	884 g

PROTECTIVE
EQUIPMENT

VACUUMAT®

Vacuum immobilization mattress

- Made of sturdy polyurethane material
- 15% more microbeads to perfectly conform to the animal's shape
- Vacuum system allows complete immobilization in the desired position – ideal for radiology, ultrasound, MRI, CT scan and surgery
- Thermal insulation, flexible, comfortable, and sturdy material
- High quality safety valve, which can maintain air for more than 72 hours
- Radiolucent and easy to clean

*Pump
included*

*Patch kit available
upon request*

Code	Dimensions
327302	16 x 24 in
327304	24 x 39 in

To ensure optimal durability it is preferable to use the VACUUMAT® with calm or anesthetized animals.

PROTECTIVE
EQUIPMENT

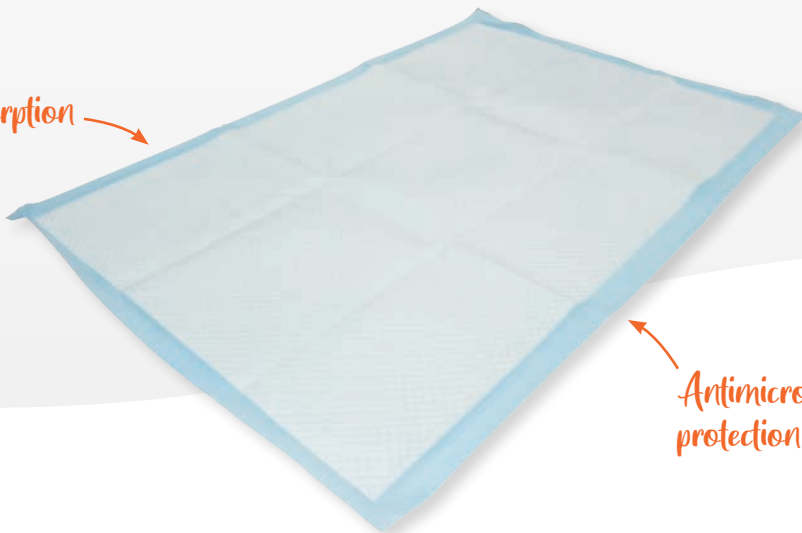

DRYSOFT®

Highly absorbent pads made of super absorbent gel

- Five layers of fast absorbing padding = no leaks!
- Absorbs up to twice as much as similar product / you will use less
- Anti-microbial polymer gel increases absorption and reduces odor

Fast
absorption

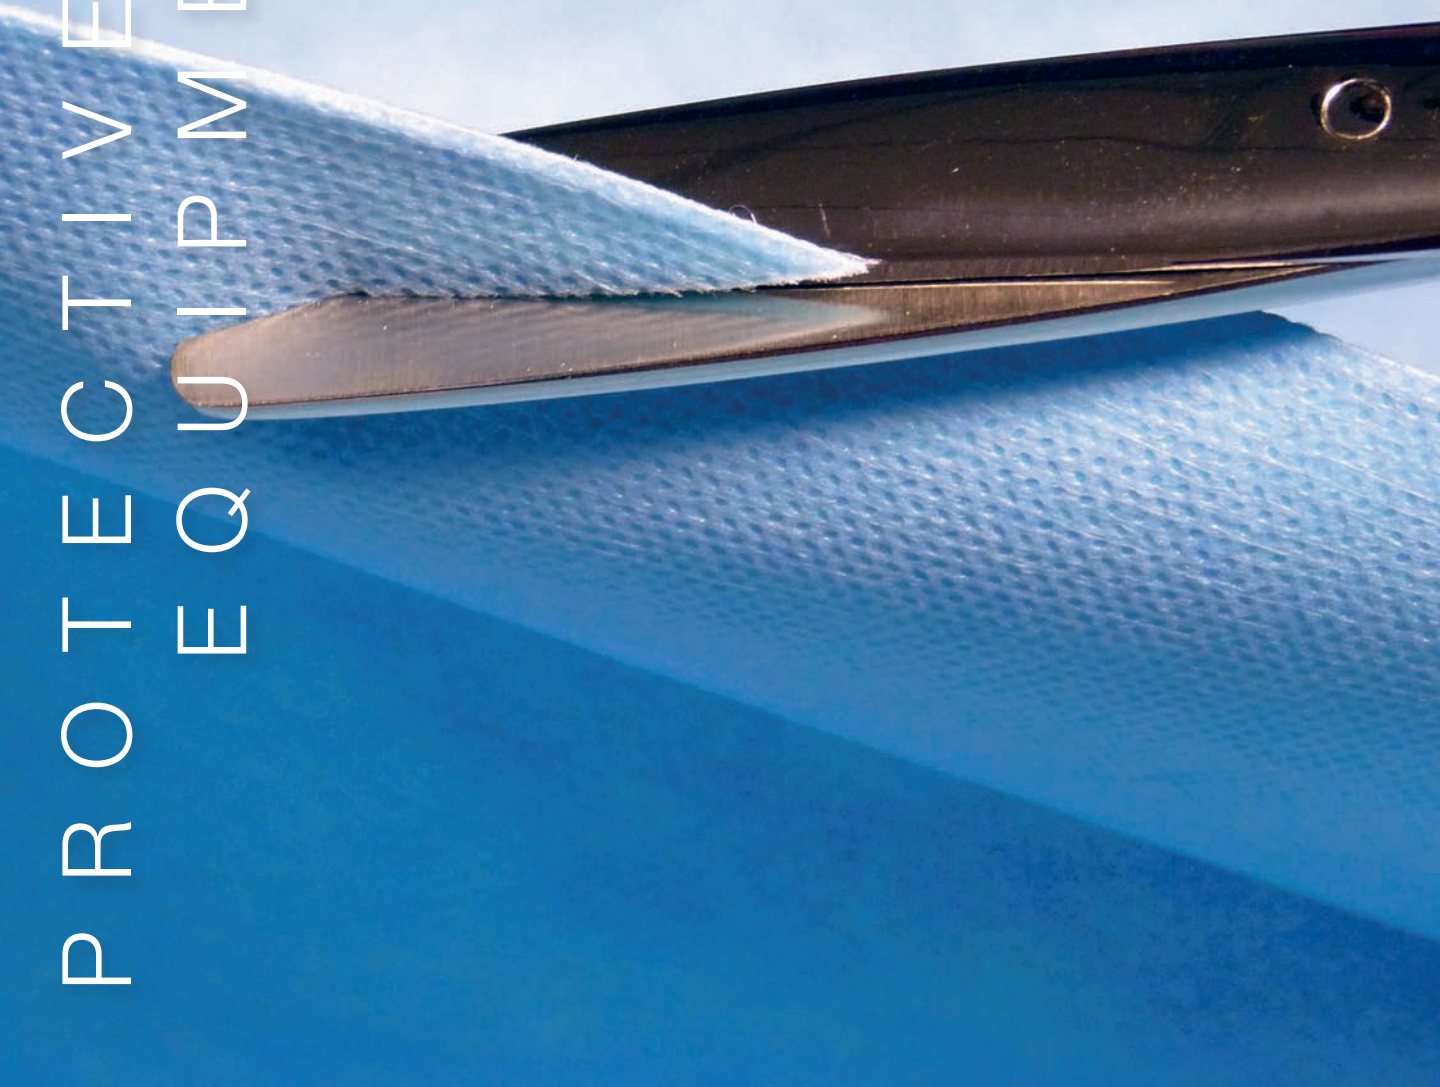

Antimicrobial
protection

Code	Dimensions	Absorption capacity
327050	16 x 24 in	800 mL
327052	24 x 24 in	1 000 mL
327054	24 x 35 in	1 900 mL
327056	24 x 35 in	2 500 mL

PROTECTIVE EQUIPMENT

DRAPVET

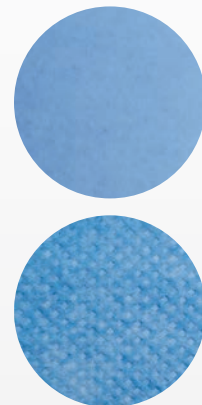

Génia disposable surgical drapes, non-woven, sterile

- One smooth waterproof layer
- One non-woven, pre-sterilized, and absorbent layer that is soft like fabric
- 53g/m²

Smooth & waterproof layer

Comfortable & absorbent layer

Code	Dimensions
317178	18 x 30 in
317180	30 x 35 in
317182	49 x 49 in
317184	79 x 118 in

MANANO MÉDICAL

CARBON TECH

The Carbon Tech V2 Heating Mat is designed to be particularly robust while also providing an optimal heat distribution evenly over its entire surface.

- Maintains patient temperature during anesthesia, so recovery is simple and safe
- Gently warms the patient while minimizing the risk of burns
- High density carbon fabric/flexible structure
- Liquid-resistant coating that is soft and easy to clean
- Integrated probe with temperature sensor
- Integrated temperature limiter (107.6°F - 42°C)
- 3 power levels: 50%, 80% and 100%
- 5 years guaranteed from scratches and bites!

Safe to use

*Natural
& durable*

Code

MAT0344-V2

Dimensions

Cage size - 20 x 24 in

MAT0342-V2

Table size - 20 x 44 in

MANO MÉDICAL

LASER FLEX LT16

Cold laser therapy, typical applications in veterinary medicine:

- Pain treatment
- Facilitation post-surgical healing, aiding wound healing
- Inflammatory symptom reduction
- Decrease arthritis pain
- Edema reduction
- Pre-established protocols for the different pathologies of cats, dogs, horses and NACs (reptiles, small mammals, and birds)
- Protocols adapted according to the color of the animal's coat
- Ability to modify or create new, personalized protocols
- Integration of unique protocols for different phases of continuous, low, medium, or high frequency treatment

DRESSINGS

ANIPLAST® ALGI

Super absorbent calcium and sodium alginate dressing with silver ions

- Silver ions with antibacterial properties
- Forms a protective gel on wound surfaces
- Hemostatic

*Super
absorbent*

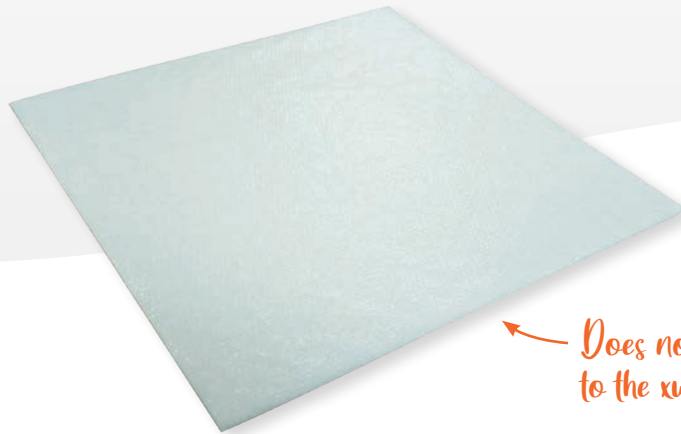

Code	Dimensions
327020	4 x 4 in
327022	4 x 8 in

DRESSINGS

ANIPLAST® SURGI

Non-adhesive absorbent dressing

- Non-woven absorbent pad that prevents maceration and infection
- Micro-perforated polyethylene sheets on each surface which limits maceration

Does not adhere
to the wound

Code	Dimensions
327030	4 x 4 in
327032	4 x 8 in

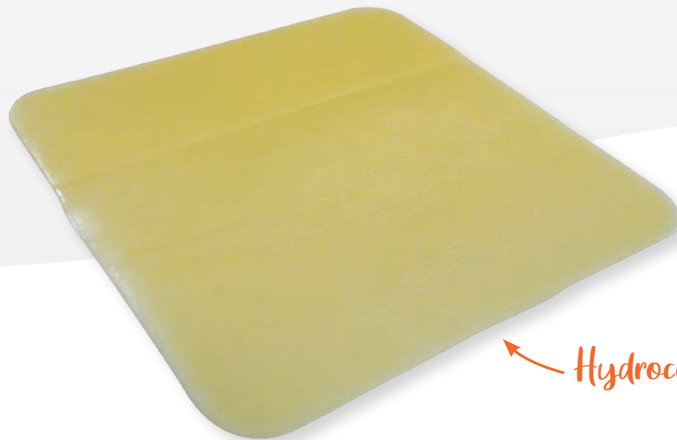

DRESSINGS

ANIPLAST® HYDRO

Absorbent healing dressing

- Gelatin free hydrocolloid layer applied to a polyurethane film to form a gel on the wound
- Maintains a moist and warm environment on the surface of the wound which promotes granulation and epithelialization along the wound's self-debridement
- Bacteria resistant

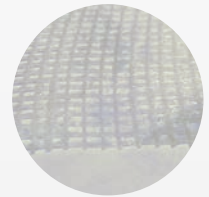

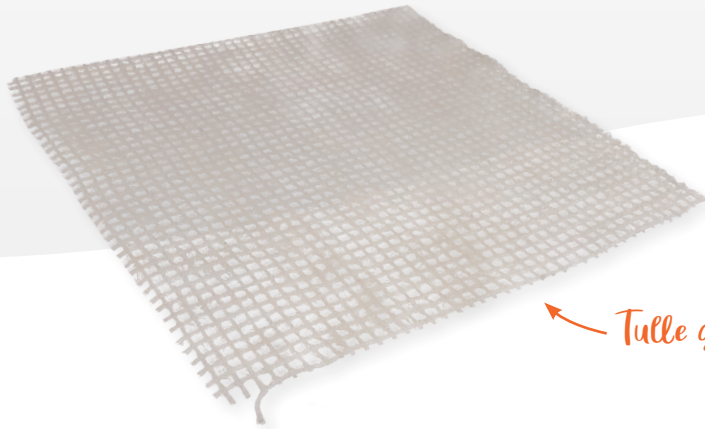

Code	Dimensions
327014	4 x 4 in
327016	8 x 8 in

DRESSINGS

ANIPLAST® TULLO

100% cotton absorbent gauze infused with white paraffin

- Made from reticular cotton fabric that allows exudate to drain from the wound ensuring no maceration
- Pro-inflammatory activity that promotes granulation

Code	Dimensions
327006	4 x 4 in
327008	4 x 8 in

DRESSINGS

ANIPLAST® SPONGI

Super absorbent dressing

- Non-adhesive, semi-occlusive foam dressing on a thick water-resistant polyurethane film
- Permeable to gas and water vapors but resistant to bacteria
- Limits maceration and infection
- Keeps the wound surface moist and warm which encourages wound's self-debridement, granulation, and epithelialization

← Absorbs up to
50 times its weight

Code	Dimensions
327000	4 x 4 in
327002	8 x 8 in

THE CHOICE IS BASED ON THE VETERINARIAN'S CLINICAL ASSESSMENT

	TYPE OF WOUND	DRESSINGS	DRESSING CHANGE
	<p>Non-infected wound. Surgical wound. Healing by first intention. Low exudate wound.</p>	<p>SURGI</p>	<p>When saturated. From every day to every few days.</p>
	<p>Wound in debridement stage. High or moderate exudate and/or cavitary wound.</p>	<p>ALGI</p> <p><i>Rough side against the wound</i></p>	<p>When saturated. From every day to every few days.</p>
	<p>Wound in debridement stage or in granulation stage. Moderate exudate wound and/or without cavitation.</p>	<p>HYDRO</p>	<p>Every three days on average. Change if discoloured or swollen.</p>
	<p>Wound in granulation stage. Low exudate wound and/or burns.</p>	<p>TULLO</p>	<p>From every day to every few days.</p>
	<p>Wound from debridement to epithelialisation. Medium/high exudate wound Aural hematoma.</p>	<p>SPONGI</p> <p><i>Foam side against the wound</i></p>	<p>When saturated or every five days.</p>

ANIPLAST® SET

Set of ANIPLAST® dressings for small and large animals

Code

Content

327040

Small animals set

307256	4 x 98 in

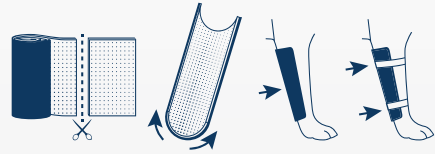

BANDAGES

SOFT SPLINT ROLL

Aluminum roll splints with foam on both sides

- Flexibility to fit any shape
- Soft and resilient for efficient immobilization
- Lightweight, compact, and comfortable
- Washable closed-cell foam
- Easy to cut, reducing sharp edges

Code	Dimensions
307830 ●	1.8 x 10 in
307832 ●	2.2 x 14 in
307834 ●	3.5 x 16 in

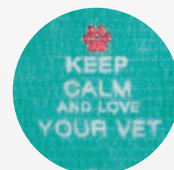

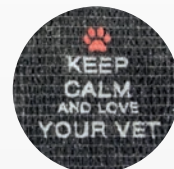

BANDAGES

FUN STRAP®

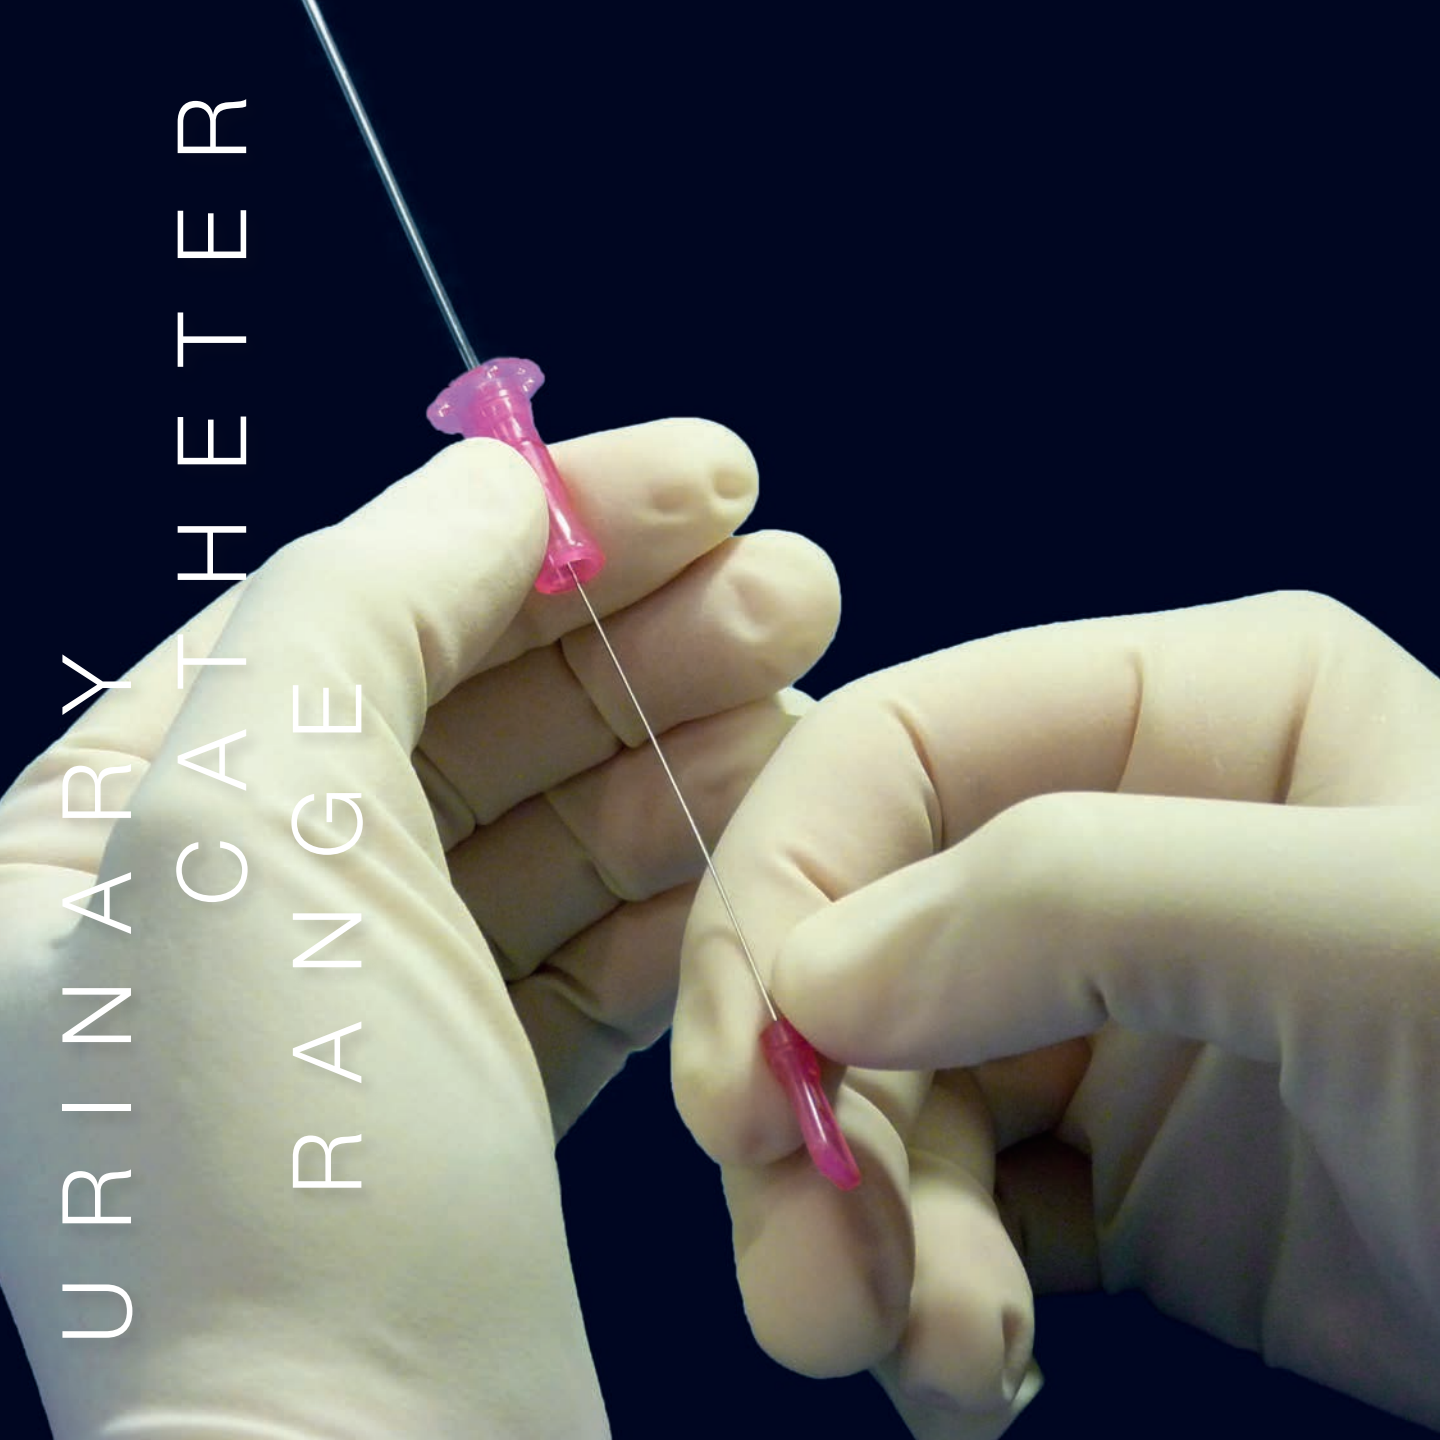

Durable medical-grade bandages

- Self-adhesive with no sticking to hands or fur
- Fun colors and designs for pet owners
- Odor protection to prevent biting and licking
- Easy to adjust and tear, no scissors necessary

Code	Dimensions
307240	2 x 177 in
307241	2.8 x 177 in
307242	3.9 x 177 in

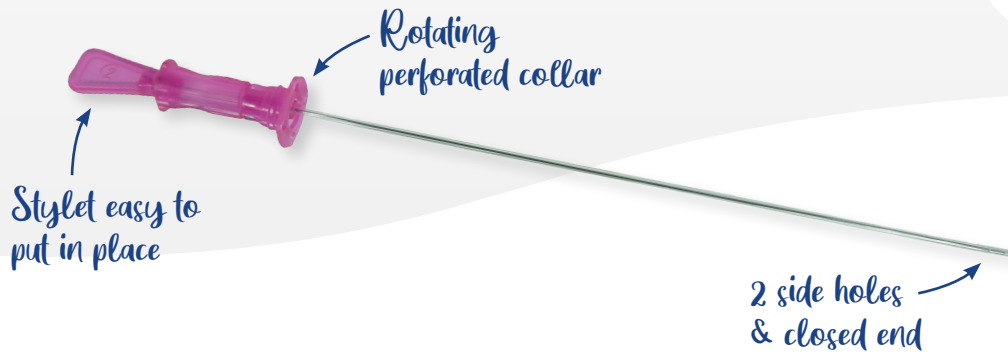

URINARY CATHETER
RANGE

UROLENE® CAT

Premium quality sterile feline urinary catheter

- 360-degree rotating collar with 4 stitching holes
- Rounded end with 2 side holes
- Atraumatic for easy insertion into the urethra
- Luer-Lock hub making it easy to flush or collect with a Luer-Lock syringe
- Metal stylet provided for easier insertion
- DEHP-free & radiotransparent
- Sterile and individually wrapped

Code	Model	Dimensions
306900 ●	With stylet	3FG - 1.0 x 110 mm
306902 ●	With stylet	4FG - 1.3 x 140 mm

génia USA

The logo consists of the word "génia" in a bold, blue, sans-serif font. The letter "é" has a small accent mark above it. To the right of "génia" is the text "USA" in a smaller, blue, sans-serif font. Below the entire text is a blue, slanted shadow that tapers from left to right, giving the logo a three-dimensional appearance.
