

AtomicX

SIX WHEELED STUNT CAR

INSTRUCTION MANUAL

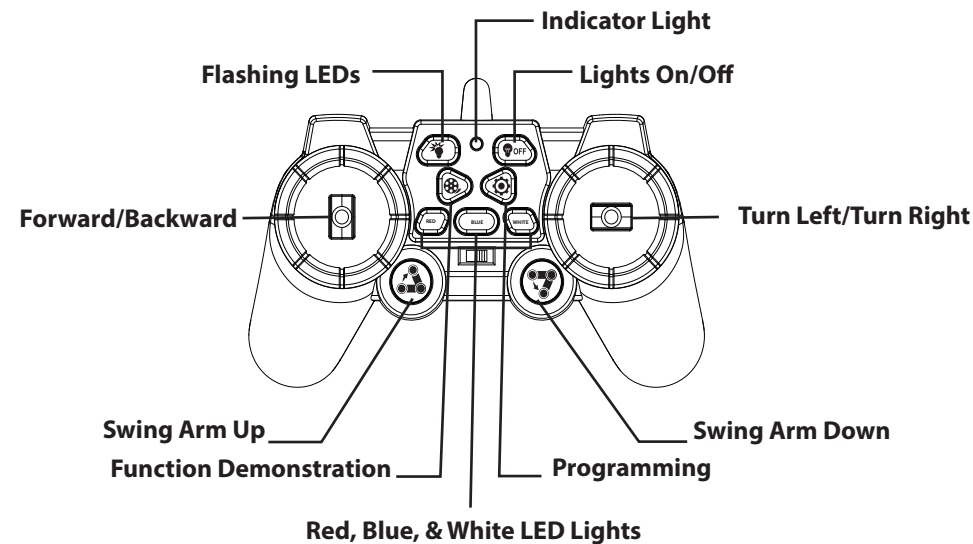

Quick Start Guide

1. Turn on the AtomicX RC stunt car (on/off button can be found on the bottom of the car).
2. Turn on the remote transmitter.
3. Press the Function Demonstration button on the remote to start.

Pairing Instructions:

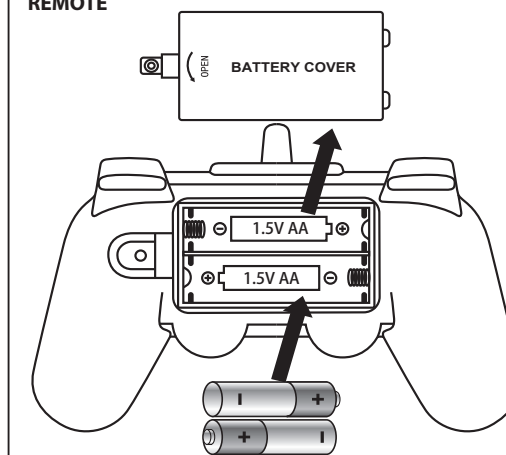

1. Turn on both the car and the remote.
2. The indicator light on the remote control will flash then turn off to signal successful pairing.
3. If the indicator light on the remote flashes but does not turn off, pairing is unsuccessful.
4. When this happens, turn off both the remote and the car then turn them on again until they are successfully paired.

Programming Instructions

1. Press the Programming button on the remote to start setting up a series of stunt RC car stunts.
2. Use the buttons and toggles to program your desired sequences (Program up to 30 actions).
3. Press the Programming button again to finish programming. Watch your RC car perform all the programmed stunts one after another, all on its own.

REMOTE

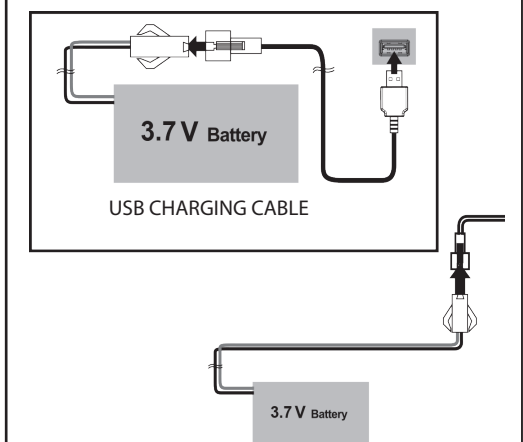

REMOTE CONTROLLER USES 2X 1.5V AA BATTERIES.
(Batteries not included)

Safety Reminders

1. Regularly check all electronic components. Discard if damage occurs.
2. This RC car has fast moving parts. Keep hands, hair, other body parts, and clothing away from moving parts to avoid accidents.
3. DO NOT attempt to charge non-rechargeable batteries.
4. Properly dispose old batteries following local laws and regulations.
5. Install batteries according to correct polarity as shown in the battery compartment.
6. Remove exhausted batteries from the toy.
7. DO NOT short circuit terminals.
8. DO NOT mix old and new batteries.
9. Remove batteries when not in use.
10. DO NOT leave charging batteries unsupervised.
11. DO NOT overcharge batteries. Max charge time: 2 hours.
12. Store batteries in cool, dry place. Keep batteries out of direct sunlight and from moisture.

ATOMICX RC CAR

OPEN THE BATTERY COMPARTMENT COVER AND
INSTALL BATTERY WITH CORRECT POLARITY.
