

POWER TOOL STORAGE UNIT ASSEMBLY INSTRUCTIONS

In your box today, you should have received:

- Left Hand Panel
- Right Hand Panel
- Upper Shelf
- Lower Shelf
- Slotted Drill Tray
- 3 x Front Brackets
- Bag of Screws

Slot in the lower panel as shown. Please note the lower panel has four holes in.

Repeat with the upper panel. Some gentle force may be required. Please note this panel has three holes.

Add the second side panel, following the same method as the previous steps.

Slot in the drill tray with the small hooks facing downward as shown in the image.

Snap off the 3 front brackets.

Slot the brackets over and insert behind the lower shelf.

Once inserted the brackets should look like the image.

Screw each bracket into the tray as shown.

Install the remaining screws into the body.

All Complete.
