# Hamilton Hills Smart App Installation Guide

1 | Navigate to the app store on your mobile device.

2 | Download the app called Hamilton Hills Smart.

3 | Once app is downloaded, open the app and select Register.

4 | The app should automatically detect your country code. If not, please select the country code for your country of residence.

5 | Enter either your email address or phone number. (If you enter your phone number you will be sent a verification text message which you will need in the next step).

6 | If you're setting up using a phone number, please enter the verification code that was sent to your phone.
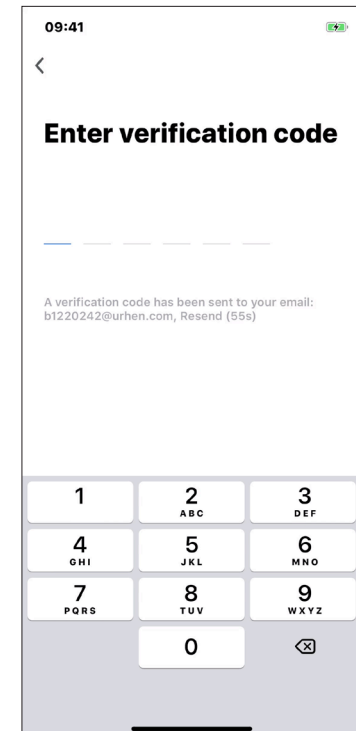

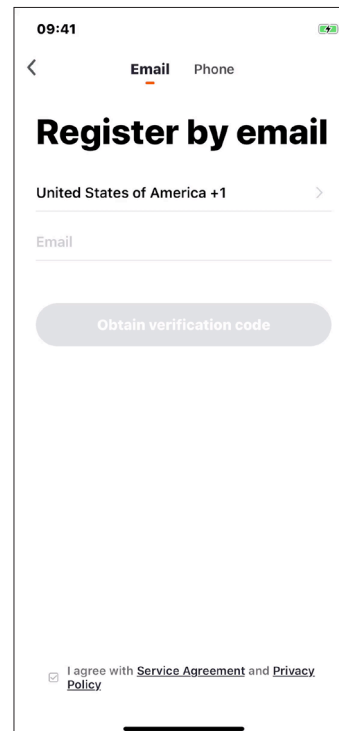

7 | If you're setting up using an email address please enter your desired password, and select `Completed`.
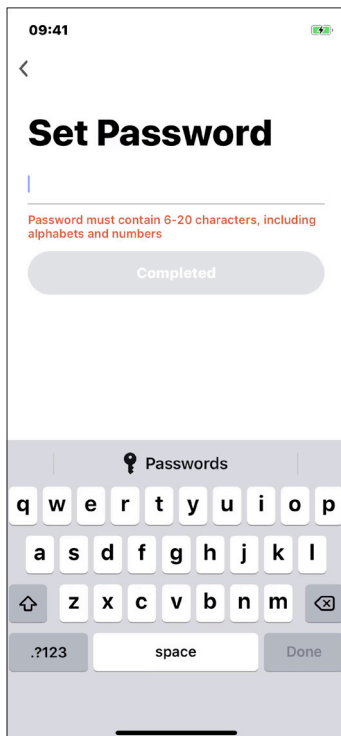

8 | You have now successfully created an account and you're now ready to start setting up your Smart bulbs and fixtures.
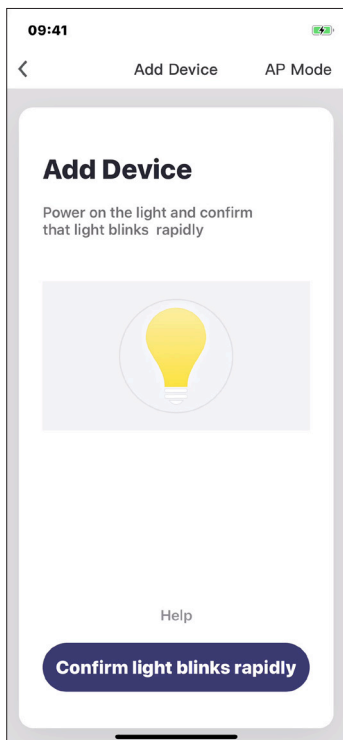

**9** | Select `Create family` to add a device.

10 | Select `Add Manually`.

11 Connect your Smart light to a power source. To enter pairing mode, turn the Smart light on and then off for 3-5 seconds at a time. Do this 3 times. The Smart light will begin blinking rapidly once in pairing mode.

12 Connect to your desired 2.4GHz Wi-Fi network, enter your password, then select OK .

13 If the below message appears it means you're currently not connected to a Wi-Fi network.

🔒 Password

OK

14 Once you select OK after entering your password, the app will start to pair the Smart light to your app.
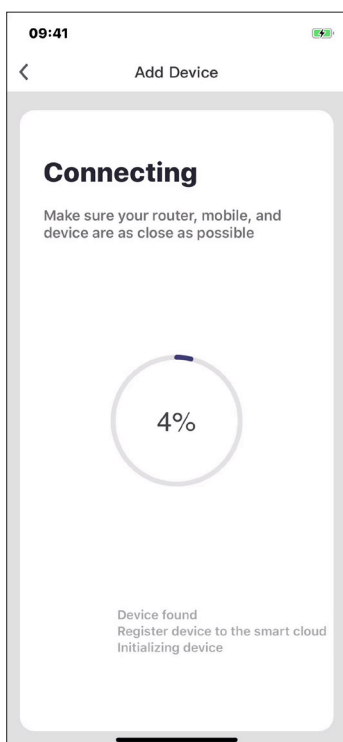

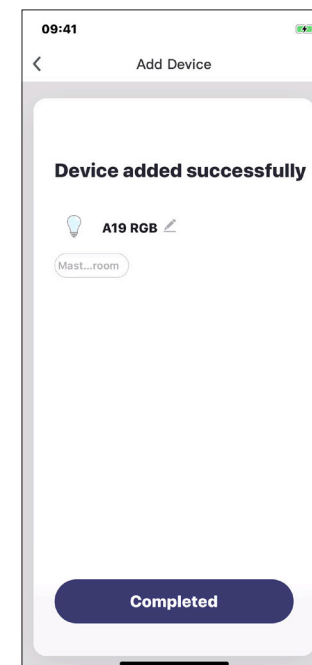

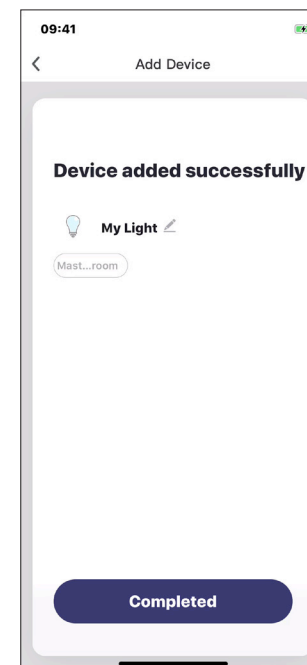

15 If you get a message that says "Failed to add device…" it means that the connection has failed. You may have to enter the Smart light into pairing mode again, and repeat steps 11 through 14.
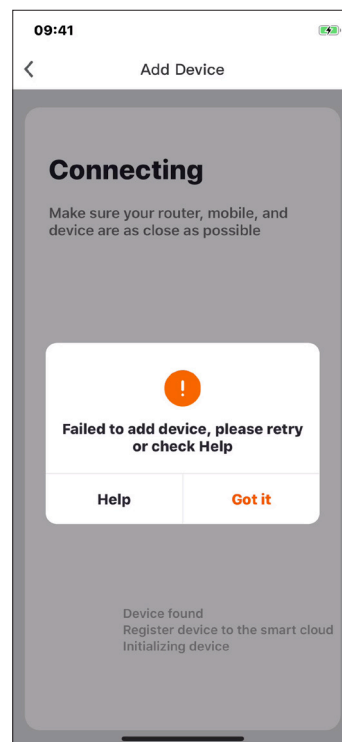

16 Once your Smart light successfully connects to the app, the below screen will pop up and you can change the name of your Smart light/device.

For Example: My Light. It's best to make this simple so that if you would like to connect this to your Alexa App or Google Home, it will be easier for the smart assistant to understand which light you would like to control.

After naming your Smart light, select Completed.

**17** | You're now able to control your Smart light in the Hamilton Hills Smart app.
18 | Select the circle that says "White" (this may be different for your device). This will allow you to change the color and brightness of your lighting device.
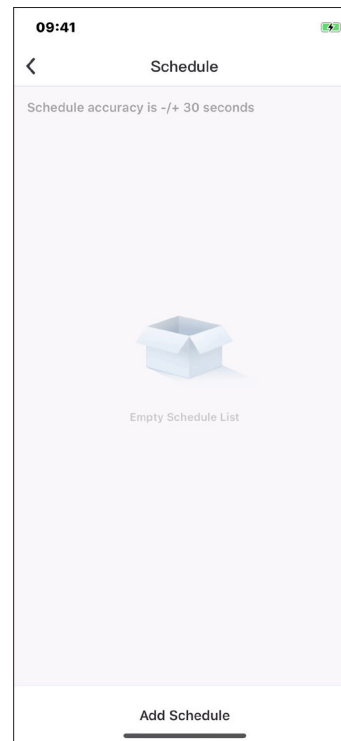

19 | Select the circle that says "Schedule". This will allow you to schedule your lighting device to turn on or off at certain times of the day. Select "Add Schedule" at the bottom of the screen to get started.
