

1. Open Packaging and unpack items as shown below.

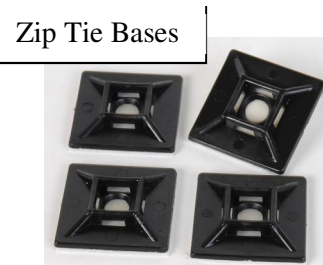

Cable Sleeve

Cable Ties (4" & 14")

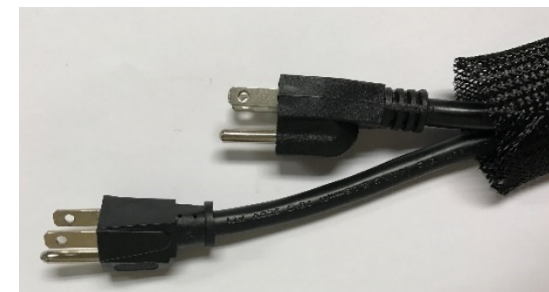

Adhesive J-Channel

Zip Tie Bases

To Install Cable Sleeve

- A. Install cable sleeve over desired cables to be managed.
 - Staggering plugs makes sliding the cable sleeve over them easier.
 - Expand cable sleeve by gripping with both hand and push together to aid in feeding cable through the cable sleeve. Further management may be needed with the other provided items.

To Install Cable Ties and Bases

- B. Secure the cable sleeve with cables interior to the table using the provided items.
- C. Peel back adhesive backer and press zip tie base onto desired surface location. Secure cables with zip tie as shown below. Further management may be needed with the other provided items.

To Install Adhesive J-Channel

- A. Peel back adhesive backer and press the adhesive strips onto desired surface location and insert cables. Further management may be needed with the other provided items.
